EEC Ministers Fail to Clear Hurdles to Proposed Summit

By David Haworth

BRUSSELS, Nov. 25 (IHT).-After a day of talks by foreign ministers of the European Economic Community here today, there still is no certainty that the proposed summit meeting in Paris next month will take place.

No date was fixed. The Irish an. Italian foreign ministers again refused to lift their "reserve" on whether the summit meeting should be held at all after they falled to win an undertaking from their colleagues that the conference will give the go-ahead for the establishment of an EEC regional development fund.

The ministers have promised that between now and their next formal meeting-set for Dec. 2, a week before the suggested date for the summit session—there will be a series of intensive bilateral discussions among KEC capitals on the regional policy

Irish Foreign Minister Garret Flizgerald blamed the French, British and West Germans for the inconclusive nature of today's

"We're not going to be fooled

again," he said. "For 14 months these three countries have failed completely to reach agreement about the size of the regional fund or what type of fund should be adopted."

He said that London Boon and Paris would have to reconcile their differences before the community could confidently hold a summit meeting which had any chance of success. He said that at the last two summit conferences, a regional fund had been promised, but on both occasions it had failed to materialize. Mr. Fitzgerald added that the

Italians held exactly the same view: that a summit meeting would be of little interest to them unless it produced a firm decision to launch a regional fund next year.

As a result of today's disagreement, the meeting broke up unexpectedly early. Little progress was made on the other agenda items.

On anti-inflation policies, on energy and on the unemployment question, the ministers merely agreed to refer these issues to the EEC heads of state and goverrment

Walking a Tightrope

The ministers tried to walk the tightrope between achieving specific agreements at this stage and leaving the entire onus for a summit meeting's success on the heads of government themselves.

The ministers are haunted by the failure of the EEC's summit meeting at Copenhagen last December, when too much had been left for decision at the conference itself-with the result that it broke up in bad-tempered disarray.

With the exception of the Irish and Italians, there is no doubt about the political will to hold a summit meeting. But the continuing uncertainty about whether it will take place has already called into question the remaining hopes that the event will be a "success" in the terms that all nine EEC member nations hope for.

All the ministers even Mr. Pitzgerald-were at pains to emphasize at the end of today's discussions that "some progress" had been made. But EEC officials tended to look upon it as progress by default-that is, no new hurdles to a summit session had emerged.

In First Operation of Its Kind

Barnard Links Up Two Hearts in Patient

CAPE TOWN, Nov. 25 (Reuters).—Surgeon Christiaan Barnard today joined the heart of a 10-year-old girl to that of a 58-year-old mining engineer suffer-ing from terminal heart failure. It was the first operation of this kind. The patient, Ivan Taylor, was reported later today to be in good condition, with both hearts beating.

The unnamed donor was fatally injured in an accident shortly before the operation.

At a press conference at Groote Schuur Hospital today, Prof. Barnard described the operation as "a quite exciting new idea." It was so simple that "once we've got confidence, we can do it without a heart-lung apparatus," the 51-year-old surgeon declared.

"If successful, this operation could replace the total transplant." he said. The surgeon explained that the

new heart had been connected sorta to sorta and atrium to atrium with the diseased beart and was taking over the functions of the cld heart's left side The hearts are sutured to-

to say I have by-passed his left ventricle. The old heart takes care of as much as it can. What cannot handle is taken care of by the new heart,' he said. "The beautiful thing is that if the new heart is rejected, we can has his own heart to keep him going," Prof. Barnard said. "With a straight transplant the operation is final. When you take a man's heart out, it's out, Prof. Barnard said that the

remove it, and the nationt still

recipient's heart was completely diseased and that his chances of survival before the operation were "hopeless."

The patient was older than he would have liked, Prof. Barnard

said, adding that he had never seen a heart as bad as that one. He said that he had to cut away 40 per cent of the left ventricle of the patient's own heart, which had been practically destroyed by multiple heart attacks

Immediately after the operation, "I was very surprised to see how the action of the [patient's own] heart had improved." Prof.

Barnard said. "I am very happy with him," he added.

The donor heart was kept beating artificially in the child's clinically dead body until the operation could begin.

The additional heart has been (Continued on Page 2. Col. 2)

days and he added that he not feel she would need ter X-ray or chemotherapy. n response to newsmen's stions, he said about 10 per

weeks, other physicians were consulted about alternatives to surgery, including radiation therapy and drug treatment When Mrs. Rockefeller asked a week ago about the blopsy results Dr. Urban told her that dormant cancer cells were found. He told her the cells might not move about the body for years but should be removed.

Hopes on Syrian Response Rise

Vladivostok Encourages Arab Moderates

By Henry Tanner

CAIRO, Nov. 25 (NYT).-The call by President Ford and Leonid Brezhnev, the Soviet Communist party leader, for a re-sumption soon of the Geneva conference on the Middle East was taken in a spirit of optimism here today by moderate Arab diplomats.

They expressed hope that the prospect of early resumption of the talks would have a positive effect on the attitude of President Hafez al-Assad of Syria and possibly lead him to agree to a six-month extension of the mandate for the United Nations peace-keeping force on the Syrian-Israeli front.

Syrian resistance to approving an extension of the mandate which expires on Saturday, has been seen as a major obstacle to Middle East peace-making efforts. Mr. Assad has said that he cannot approve the extension without getting something in re-

Uncertainty about Syrian intentions has heightened fears of renewed war. It is felt in some circles here in Cairo that Israel might take a Syrian refusal as a pretext for a "preventive war"

against the Arabs. In Washington, officials said the wording of the Ford-Brezhnev communiqué was loose enough to allow Secretary of State Henry Kissinger to continue his stepby-step approach to Middle East peace, if he could find backing in Egypt and Israel.

Egyptian diplomats have been saying that Yassir Arafat and the other leaders of the Palestine Liberation Organization, the overall grouping for Palestinian guerrilla units, are in fact accepting the existence of Israel as they seek international respectability through the United Nations and a part in the nego-

tiating process at Geneva.
Cairo officials feel, however,
that the PLO's leaders could not have been expected to make that acceptance formal in a UN resolution at their first appearance there. If they had done so, so the thinking here goes, they would have exposed Mr. Arafat to wide and violent opposition within Palestinian ranks.

UNESCO Chairman

PARIS, Nov. 25 (Reuters).—The executive board of UNESCO today elected Hector Wynter of Jamaica as its chairman for two уевгь.

Palestinians have also concluded from Mr. Arafat's trip to New York to address the General Assembly that, by entering into the diplomatic process, the PLO leadership has accepted the existence

of the Israeli state. It was noted by officials here

Heart Graft By Barnard

(Continued from Page 1) placed in the patient's right chest and, as yet, has no nerve supply, the doctor said. The patient's transplanted heart will be "under his own brain control," Prof. Barnard

Prof. Barnard and his operating team are now watching for signs of rejection. They have another problem, Prof. Barnard said, in that each heart is beating at its

own pace and the electrocardiograph readings have to be interpreted accordingly. Prof. Barnard intends to leave the new heart in the patient's chest indefinitely. Later, he said. it may be possible to use treatment as a temporary assistance measure for other pa-

tients. In that application, new heart would be removed after the old heart had regained "I think doctors will feel much freer to refer patients for heart transplants now because we don't cut out the person's own heart,"

the surgeon said. The new technique has been successfully laboratory tested using baboons as subjects. Much of the research work was done by a Belgian doctor, Dr. Jacques Losman, who now works at Groote Schuur, Prof. Barnard

Prof. Barnard performed the world's first heart transplant at Groote Schuur seven years ago. Recently he has criticized doctors because they refuse to refer

patients for transplants. The first transplant patient, Louis Washkansky, lived 18 days with his new heart before his body rejected it.

The world's longest surviving heart transplant patient is Louis Russel, 49, of Indiana, who received a new heart at a Richmond, Va., hospital, in August, 1968. Last month, he was given a permanent pacemaker to help his eart pump blood.

that the phrase in the Ford-Brezhnev communique about "the legitimate interests of all peoples of the area, including the Palestinian people," echoed language used by the United States in previous joint declarations with the Soviet Union, Egypt and

The United States speaks of the "interests," not the "national rights" of the Palestinians. The Arabs and most of the members of the UN speak of "national rights." It was believed here It was believed here that Mr. Brezhnev bowed to Mr. Ford on this matter.

Egyptians also noted that in the communiqué Mr. Ford and Mr. Brezhnev explicitly upheld the "right of all the states of the area" to independent exise. This was a phrase that Western European delegations wanted inserted into the UN resolution on the Palestinians passed Friday. But the Palestinians objected and the nine countries of the European Common Market abstained on the resolu-

The Soylet Union, as President Anwar Sadat of Egypt noted in a speech a few months ago, is committed to upholding the exis-

tence of Israel. Some Arab diplomats here interpreted the Ford-Brezhnev communiqué as a signal that Mr Kissinger's lone role in Middle East peace-making was over. To these diplomats, it appears that Mr. Ford has conceded to Mr. Brezhnev that Washington's "goit-alone" diplomacy could not settle the Arab-Israeli conflict and that the strong cooperation of the Soviet Union-in fact, a joint effort by the two big powers-was what was needed.

Israeli Spy Couple Get Death in Cairo

CAIRO, Nov. 25 (AP).-An Egyptian military court today sentenced a Palestinian and his Egyptian wife to death by hanging after finding them guilty of spying for Israel.

Ibrahim Shahin and his wife. Inshirah, were said to have been arrested in August in possession of a U.S.-made radio transmitter. The prosecution sair they used it to report on "any military moves indicating a new war in the region," Their 18-year-old son received five years in prison on the same charge and two younger sons were sent to a juvenile home. President Anwar Sadat must approve the death sentences.

ONE POINT OF VIEW—Egyptian press comment on the hijacking included this cartoon in Al Ahram. The gunman is labeled "Criminal Organization" and the female figure is named "Palestine." She says in a caption, "You are not my son nor do I know you."

Israelis Smash West Bank Guerrilla Ring

TEL AVIV, Nov. 25 (UPI).— Israel said today its security forces broke up a Syrian-backed guerrilla network in the occupied West Bank of Jordan that included two Israeli Arabs.

The forces uncovered a cell affiliated with the as-Saiga guer-rilla organization based in Syria and arrested 28 persons, the military command said.

Military sources said the suspected guerrillas were rounded up during the last several days in the West Bank towns of Ramaliah, Nabius and Hebron, the scenes of civil disorders in recent

It was the first report of a guerrilla ring being smashed since April when security forces broke up two groups, one in Ramallah and one in Jerusalem.

Suspected of Attack

The command said the cell was suspected of a grenade attack in Hebron in August and that one of its Israeli Arab members carried out a similar attack in coastal Netanya later the same month.

The breakup of the network occurred in the wake of widespread disturbances in the West Bank in which hundreds of Dersons were arrested on charges stemming from anti-Israel demonstrations and strikes. It was the biggest outburst in the area in seven years of Israeli rule.

Yesterday, United Nations inspection teams made their third tour of fortified Israeli lines on the Golan Heights within a week. with Syria still silent on whether it would renew the UN peacekeeping mandate there.

In Damsseus UN Secretary-General Kurt Waldheim said tonight he was confident that the

French Minister Rebuffs UNESCO

PARIS, Nov. 25 (Reuters) .-Françoise Giroud, France's Secretary of State for Women's Affairs, decided today to boycott a meeting at the United Nations Educational, Scientific and Cultural Organization because of the international body's attitude toward Israel.

She rejected an invitation to address a meeting on woman's future in modern society, describing UNESCO's attitude as "shock-

Ten days ago, a group of 31 artists and intellectuals, including Jean-Paul Sartre and planist Artur Rubinstein, said that, to protest the exclusion of Israel from all UNESCO activities, they would never again collaborate with the organization.

Rare Visit Paid To Persian Gulf By U.S. Carrier

WASHINGTON, Nov. 25 (AP).

—A U.S. aircraft carrier has entered the Persian Gulf for the first time in 26 years, the Pen-tagon announced today.

The carrier, accompanied by two guided-missile destroyers, will conduct a brief familiarization deployment" and will leave within a week, the Pentagon said. The appearance of a U.S. carrier in waters adjoining some of the most important oil-producing countries in the world seems certain to provoke new protests from the Soviet Union, India and other countries which oppose U.S. naval operations in the Indian Ocean region.

Pentagon spokesman William Beecher said the carrier Con-stellation, with about 100 aircraft aboard, entered the gulf yesterday accompanied by the de-stroyers Berkeley and Cochrane.

and the Persian Gulf.

"This is the closest thing to Nazi Germany I've ever heard of," said the wife of a New Delhi businessman. "Now they're perfectly free to barge into our homes in the middle of the night and drag anyone off to jail. All they have to do is label you a smug-

President Fakhruddin Ali Ahmed issued the order on Nov. 16 at the behest of Prime Minister Indira Gandhi. Mrs. Gandhi forced the order through over the objections of all opposition political parties.

Rare Unity

The opposition, from the right-ist Hindu Jana Sangh party to the Communist party of India, displayed rare unity in opposing the order, which has been labeled "authoritarian," an act of "naked dictatorship" and "fascistic."

Legal sources expressed the opinion that the order may not be constitutional. The govern-ment enacted the order under the national emergency which has been in effect since the Bangladesh War of December,

Some lawyers point out that the emergency regulations give the government extraordinary powers to deal with threats to the security of the country. Smugglers and foreign-exchange racketeers, they argue, do not constitute that kind of threat. The presidential ruling is to remain in effect for six months or until the emergency is lifted. The government took the drastic step as part of an intensive campaign against organized criminals who are said to be depriving India of more than \$6 billion a year. Since the campaign was launched two months ago, 539 alleged smuggiers and foreignexchange racketeers reportedly

have been arrested. 20 Released However, in the last few weeks, courts in various parts of India have released 20 of these persons,

mainly because the evidence against them has been considered grossly inadequate. Frustrated by these decisions, Mrs. Gandhi decided to override the courts by depriving suspects

of their access to the legal sys-

The government has tried to assure opposition politicians and the public that the presidential order will be used only against smugglers and other racketeers. ever, to calm suspicions that the government is now free to arrest and hold not just criminals, but

anyone whose freedom it finds inconvenient The concern is heightened by the fact that the order can be invoked not only by the central government in New Delhi but also by state and district governments. This local government nower raises the fear among numerous critics that the ruling Congress party will be able to conduct a witch hunt, at all levels against its political enemies,

Convenient. Tool Some critics believe that Mrs. Gandhi intends to continue the state of emergency for as long as possible because it provides her with a convenient tool. The legislation under which the anti-

Britain Moves to Outlaw IRA, Control Irish Travel

(Continued from Page 1) ficers, as well as the police, would have powers to arrest, detain and search suspects at airports and docks.

"The practical effect will be to give the police powers to exercise a security control over all passengers entering and leaving Great Britain for Ireland," Mr. Jenkins said, "At present the police exercise surveillance at the ports but they have no special powers to question or search travelers." As part of the crackdown, the government also made illegal the

wearing of anything that would 'arouse reasonable apprehension' that a person was a member of an illegal organization. This was in response to public complaints against IRA supporters parading in England in IRA uniforms at fumeral processions and protest

Support From Heath Mr. Jenkins won virtually manimous support in the House for his measures. Edward Reath, the leader of the Conservative party opposition, said: "We strongly support you and the proposals you have put forward. In a free democratic society we

would prefer not to have to take such powers. But the home secretary is right in saying that the present situation demands this. We will give you wholehearted support.

Some members expressed concern that the measures might entrap the innocent and deprive them of democratic safeguards. But Mr. Jenkins said the powers would expire after six months and that he would review how they had worked at that time.

Secretary of State Henry Kissinger told a press conference in Vladivostok yesterday that the "breakthrough" accord will "put a cap on the arms race."

In a statement on arrival at Andrews Air Force Base, Md., last night, Mr. Ford said: "Ceilings on the strategic forces of both nations have been accept-

A good agreement that will serve the interests of the United States and the Soviet Union is within our grasp."

Differences Stated

Mr. Ford told his welcomers that "we often agreed, but not always. When we did not, we stated our differences frankly" The President noted that many

details remained to be worked out by both sides on the strategic arms limitation before final acceptance and formal conclusion the agreement. The pact enbodying the principles agreed to in Vladivostok is expected to be signed by the President and the Soviet leader when Mr. Brezh-nev visits Washington next year.

Congressional Meeting

White House Press Secretary Ronald Nessen said the President would meet tomorrow with congressional leaders of both parties. including chairmen and ranking minority members of Senate and House Armed Services, Foreign Affairs and Appropriations Com-

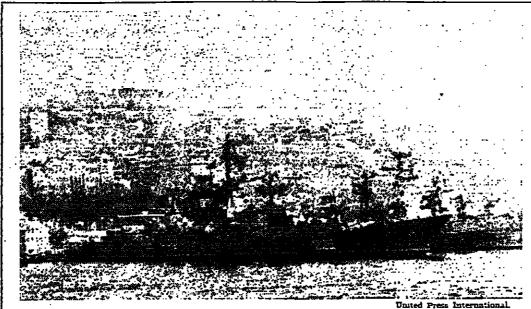

The President was said to be awaiting a written statement from the Russians spelling out exact terms of the oral agreement before announcing the numbers of warheads and missile systems it cavers. Mr. Nessen said, however, that those figures would be relayed to the legislators at tomorrow's White House meeting.

Soviet Media Hail Talks MOSCOW, Nov. 25 (UPI).-The Vladivostok summit meeting was a major step toward insuring world peace, official Soviet news media said today.

"Vladivostok means a strengthening of international security." the newspaper Sovietskaya Rossiya said, and the Communist party newspaper Pravda said: The fact that the talks ended successfully . . . has become an important indication of goodwill both sides and their desire to attain the set goal-to contain the nuclear arms race and rule out any possibility of military

But the agreement will allow

By Hedrick Smith

MOSCOW, Nov. 25 (NYT). The breakthrough by President Ford and Soviet leader Leonid Brezhnev toward a major new strategic arms control agreement far exceeded most expectations and will undoubtedly give a new impulse to East-West accommodation at a time of some uncertainties on both sides.

The extent of the agreement and the speed with which it was achieved suggest also that the Kremlin may have been prepared last summer to move for-ward on this issue but held back for fear that President Richard Nixon was in too weak a position to get a complex arms agreement approved by the Senate.

The Kremlin may also have been persuaded that this was moment to move ahead by start of congressional action approve the administration's trade bill granting Moscow more favorable tariffs in return for more relaxed handling of emigration by Jews.

Whatever the immediate causes, the success of the brief Far Eastern encounter is likely to proce political dividends for both Mr. Brezhnev and Mr. Ford and to give them better means for domestic skeptics of

Form of Assurance

More broadly, Mr. Brezhnev's emphasis on the need for longterm commitments in the armscontrol field and on trade is a form of assurance to the West as a whole that the Brezhnevled coalition in the Kremlin puts higher priority on pursuing accommodation than on trying to exploit the financial and energy Western Communist parties. For the Russians, Mr. Ford's

warm pledges to pursue détente and his readiness to strike an accord with Mr. Brezhney so quickly is reassurance that the change in the White House has not affected basic American policy toward the Soviet Union despite the months of worry in the Kremlin that the departure of Mr. Nixon would be dangerous to détente

For. Mr. Brezhnev personally, the cordial atmosphere and the positive results will be extremely useful in rebutting skeptics among the leadership about the course of Soviet accommodation with the West. Already, Soviet com-

mentators are halling what one television newsman has called "the important, intense and as it has now become clear, fruitful work done during these two days."
Only here and there were there indications of continuing dis-

agreements. Mr. Brezhnev hinted at Moscow's impatience for conssional approval of more favorable tariff and credit terms in a speech when he remarked much has still to be done to really clear the way for the development of equitable trade and economic links between our two countries."

On the crucial issue of how to pursue a Middle East settlement, the two leaders were clearly still at odds, although they voiced a common concern over the "dangerous situation" there. Geneva Conference

Mr. Ford refused to give Mr. Brezhnev the kind of endorsement Moscow wants for an immediate resumption of the Geneva conference and the moving of all diplomatic efforts to that forum. The loose wording of the communique indicates that Secretary of State Henry Kissinger retains full flexibility for his personal diplomacy despite Mr. Brezhnev's criticism of that approach.

On the European Security Conference, the Russians also received only a lukewarm endorsement from Mr. Ford that a "possibility" exists for its early conclusion, a more tentative commitment than Mr. Nixon had given in

On the issue of nuclear proliferation, after India's explosion of an atomic device, the Russians moved closer to the U.S. position of "stressing the importance" of making the nonproliferation treamore effective. But evidently out of deference to India, Moscow stopped short of a firm pledge to bring more countries under its

Nonetheless, it was strategic arms control that the two leaders went to Vladivostok to discuss and on which they concentrated. And, as the President's party indicated in parting, that is the issue by which the White House wants the Vladivostok meeting measured.

The final reaction of Congress will undoubtedly depend more on what was not revealed than on what was revealed—the numbers of missiles and other strategic launchers that each side has agreed to allow the other. The only clue given by Mr. Kissinger was that it will be "substantially

Prosecution Rests Its Case At Watergate Cover-Up Trial

(Continued from Page 1) threatened to expose national security activities undertaken by the "plumbers."

Mr. Frates asked Krogh if he believed that Mr. Ellsberg had threatened national security when he leaked the Pentagon papers. "My feelings were it was a of very grave national security importance," Krogh tes-tified.

In Best Interests

He also said that, at the time, he thought the Ellsberg break-in was in the best interests of the

Krogh later pleaded guilty to depriving Dr. Lewis Fielding. Mr. Kilsberg's pychiatrist, of his civil rights and stated that he had been wrong

Mr. Frates pressed Krogh as to whether he had not agreed with Ehrilchman that the breakin had exceeded the authority

Krogh qualified that, saying,

Ford Picks Aide For Energy Post

WASHINGTON, Nov. 25 (AP). -President Ford announced today that he will nominate Frank Zarb, an associate director of the Office of Management and Budget, to head the Federal Energy Administration.

Mr. Zarb, 39, will succeed John Sawhill, who was fired from the post, which is considered by Mr. Ford as one of the most important in his administration.

Mr. Zarb was reported to have passed all his FBI checks and security clearances as well as conflict-of-interest probes. He is Mr. Ford's choice to replace Andrew Gibson, who withdrew as the .. cominee alter disclosure of a \$860,000 salary settlement with an oil firm which he headed.

"It was no longer a covert opera-tion. In every respect, it was a botched operation. That was excessive in my judgment. There were no instructions for that kind of operation." The government rested its case

six weeks after an assistant special prosecutor, Richard Ben-Veniste, told the jury that "the most powerful men in the government of the United States... even the President himself," tried to block the break-in investiga-

In addition to presenting 28 witnesses, the prosecutors played 31 tapes, most of which were conversations among Mr. Nixon

Doctors See Nixon Records LONG BEACH, Calif., Nov. 25 (AP).—Three doctors reviewed Mr. Nixon's medical records today and planned to go to his seaside villa to examine him to determine if he is well enough to testify at the Watergate coverup triaĹ

The physicians, appointed by Judge Sirica, apparently decided that a physical examination would not cause Mr. Nixon excessive stress.

Kissinger Begins Visit To Peking

Secretary, Family Meet Ailing Premier

(Continued from Page 1) with appreclation" a statement by President Ford that he would continue to implement the Shanghai communiqué, calling for tions. He said:

"The current international situation is characterized by great disorder under heaven. The entire world is smidst intense turbu-lence and unrest (which) reflect the sharpening of various contradictions and is something in-dependent of man's will.

"The history of mankind always moves forward amidst turmoil. In our view such turmoil is a good thing and not a bad thing." Mr. Kissinger called normaliza-tion "not a matter of expediency but a fixed principle of Ameri-can foreign policy." Relations have moved ahead steadily in the last two years and now Mr. Ford has sent him to continue the process, he declared,

Taking a somewhat different view of current world upheavals, Mr. Kissinger expressed belief that they will lead to "a new and better order for all peoples."

The Chinese have been openly antagonistic to U.S.-Soviet arms limitation deals such as those worked out at the Vladivostok meeting during the weekend. But there was no open reference to this subject during today's ceremonies for Mr. Kissinger. As Mr. Kissinger was travelling

here, a senior American official aboard his plane—who cannot be quoted by name under prevailing ground rules for the press-described as nonsense a report in The Washington Post that the United States had indicated to China the possibility of Soviet action against it and the massing of troops along their common

The United States would very soon get into an impossible situation if it told the Russians and Chinese of the menace one faces from the other, the senior official said. He maintained that the United States had never done

Bomb Starts Fire At Harrow Dorm

LONDON, Nov. 25 (UPI).-A Gasoline bomb was thrown into a crowded boys' dormitory at Harrow school early today in the second attack on the exclusive institution in a month.

Police said there were no injuries. About 70 boys were dormitory and firemen kept the blaze from spreading beyond an upper floor.

A teacher said the bombing was preceded by what he called a 'vague warning" yesterday and a bomb hoax Saturday. On Oct. 23. a five-pound bomb was set off at a staff member's home at Harrow, but no one was injured,

MEETING IN PEKING-Secretary of State Henry Kissinger is greeted by hospitalized Chou En-lai yesterday.

Anti-Trust Suit Aims at Pacts By U.S.-British Publishers

WASHINGTON, Nov. 25 (AP). -The Justice Department filed a civil anti-trust suit against 21 major American publishing companies today, charging them with conspiring to divide world book markets illegally with British

publishers.
The Publishers' Association, a organization covering virtually all major publishing houses in the United Eingdom. was named as co-conspirator but not as a defendant. Individual British publishing houses were also named as co-conspirators but not defendants.

The suit charges that since 1947 the publishers have operated under agreements which allotted exclusive marketing territories throughout the world except in certain areas designated "open territory.

The publishers are also accused of monitoring the allocation agreements and making efforts suppress breaches, the suit

The Justice Department said that the U.S. export of books totals more than \$250 million annually and that the United Kingdom is the largest foreign market for books published in the United States. The United Kingdom exports more than \$165 million worth of books annually.

The anti-trust action charges that whenever a copyrighted book published in the United States by one of the named companies was also to be published in Great Britain the American company would grant a license to the Kingdom.

Such a license usually would give the British publisher the exclusive right to publish dis-tribute or sell the book in the traditional British market. In return, the British publisher would agree not to market the book in the United States and certain other countries.

system works the same way when a British publisher brings out a book which is also published in the United States A U.S. publisher gets exclusive rights to handle the book in this country and certain other countries by agreeing to stay out of the British market, the suit said.

As a result, the suit said, "competition in the sale of Englishlanguage copyrighted books among United States and United Lingdom publishing houser has been suppressed

"Purchasers of such books have been deprived of competition, and the purchase of book and the exportation of books from the United States and the importation of books into the United States have been restrained."

Named as defendants were: Addison-Wesley Publishing Co.; Bantam Books: Columbia Broadcasting System: Dell Publishing Co.; Doubleday and Co.; Grosset and Dunlap; Harcourt Brace Jovanovich; Harper and Now; Houghton Mifflin; Intext, Inc.; Litton Education and Publishing, The Macmillan Co.: McCraw-

Hill; Oxford University Press; Penguin Books; ent.: Hall; Random House; Simon and Schuster: The Times Mirror Co.; the Viking Press and John Wiley and Sons.

U Thant, Secretary-General Of United Nations 10 Years

NEW YORK, Nov. 25 (AP).— ing secretary-general after Ham-U Thant, 65, retired secretary- marskjold's death in an African general of the United Nations, plane crash, he was a comprodied today of cancer.

Pavilion of Columbia Presbyterian Medical Center said the former Burmese diplomat entered the hospital Nov. 21. The spokesman said Mr. Thant had been operated on there Nov. 11, 1973, for cancer of the larynx, "but time there were complica-

A UN source said the complications included pneumonia. At the time of the original operation, the surgery was said to be for a facial tumor describ-

Since his retirement in December, 1971, Mr. Thant had been living in Harrison, N.Y., working on his memoirs and assisting in the collection of his official papers. He is survived by his widow, a daughter and four grandchil-

A gentle Buddhist schoolmaster turned diplomat, Mr. Thant saw the UN through 10 years of crises and personally achieved some of its major successes in two fiveyear terms as secretary-general from Nov. 3, 1861, to Dec. 31, 1971. He was the third secretary-gen-eral, following Trygve Lie of Norway and Dag Hammarskjold

His health was good most of the time, but he had minor rectal surgery in July, 1969. He was hospitalized with a stomach ulcer in December, 1964, and again in November, 1971, one month be-fore he retired.

Chinese Question For nearly all his 10 years in office, Mr. Thant wrestled with the problem of China's representation-and considered the impasse a personal failure. Then, near the end of his second term, the General Assembly voted on Oct. 25, 1971, to seat mainland China and expel Taiwan. Mr. Thant presided at the vote, which led to a profound change in the

character of the UN. Mr. Thant ended the costly UN peacekeeping operation in the Congo by crushing the secession of Katanga in 1962 and 1963. He then rode out a 1964-65 crisis in the General Assembly over how to pay for it.

He helped settle the Dutch-Indonesian dispute in West Irian, the Soviet-American Cuban missile crisis in 1962 and the war between India and Pakistan in

He promoted peace in Vietnam for five years until negotiations began in 1968. But his acquiescence to Egypt's demand for withdrawal of UN troops from the Middle East was followed by the Arab-Israeli war of 1967.

mese delegate to the UN held the confidence of both Washington and Moscow during most of his years in office and left a reputation for independence. Mr. Thant incurred criticism from both the United States and

mise choice. But the former Bur-

North Vietnam for advocating his own peace plan for Indochina. One point in Mr. Thant's end to U.S. bombing would bring both sides to the negotiating When the bombing ended and

talks in Paris followed, Mr. Thant was gratified. But he warned that the negotiations guarantee of success. In Nigeria, he supported the costion of the Organization of African Unity that the civil war was an internal affair and that the OAU had the prime respon-

sibility for seeking a peaceful Mr. Thank warned in 1969 that UN members had "perhaps 10 years left" to solve such problems as population, the arms race, environmental pollution and economic development.

In 1968, Mr. Thant said he would not be available for a second five-year term. He listed 'is failures as secretary-general: the unresolved deadlock over UN peacekeeping procedures, the China representation issue, failure of the UN programs to nar-row the gap between the rich and

But both Americans and Russians tried hard to pursuade him to continue. He agreed, in part because he believed he could help end the war in Vietnam.

During the 1962 Cuban mis-sile crisis he carried messages be-tween President John Kermedy and Soviet leader Nikita Khrushchev, although his personal visit to Havana failed to win Fidel Castro's agreement to UN inspection of missile sites.

Sol Wilson

NEW YORK, Nov. 25 (NYT) .-Sol Wilson, 81, an expressionist artist known for his seaside paintings, died Saturday at a health Mr. Wilson spent his summers

on Cape Cod, Mass. looking for subject matter and making penand-ink sketches that he turned into oils in his studio in Provincetown, Mass. The Provincetown Art Association recently exhibited his work of the last 15 years. In the winter, Mr. Wilson painted

bought by the Metropolitan Mu-seum of Art, the Whitney Museum of American Art, the Brooklyn Museum and the Library of Con-

John C. Clark

NEW YORK, Nov. 25 (NYT) .-John C. Clark, 85, president of Histeah Park Race Course from 1940 to 1955, died Saturday in Miami Beach.

Mr. Clark had been a thorough bred owner, whose horses included Waller, a winner of the Vulcan Purse at Aqueduct and the Hal-landale Purse at Hialeah in 1942. He formerly was president of the Thoroughbred Racing Associations of the United States, treasurer of the New York Racing Association, a director at Beimont and Saratoga tracks and a mem-ber of the Turi Committee of

Georg Branis

NEW YORK, Nov. 25 (NYT) -Georg Brunis, 74, the New Orleans jazz trombonist who was a pio-neer, in Dixieland, died last Tuesday of a heart ailment in Edgewater Hospital, Chicago.

Mr. Brunis was a master of the "taligate" style of jazz trombone.
The term derives from the New
Orleans custom of having the
trombonist sit on the taligate of advertising wagons that carried bands through the streets to allow him space to extend his slide for the low notes that were the basis of his style.

Raymond Legrand

PARIS, Nov. 25 (AP). - Raymond Legrand, 66, composer and popular orchestra leader, died this morning in a Paris clinic. He was the father of Michel Legrand, composer of popular music including the scores for a number of

At the age of 17, Mr. Legrand was the leader of an orchestra aboard ships of the French Line and he lived in the United States

U.S. Navy Still Enlisting Filipino Servants

WASHINGTON, Nov. 25 (NYT). -The U.S. Navy, continuing a practice that dates back to the American colonial days in the Philippines, will recruit 1,860 Filipines this year as servants for its officers.

Of the four military services, only the Navy enlists foreign nationals to serve in its ranks -a practice that high-ranking Navy officers defend on the grounds that it provides eco-nomic opportunity for young Filipino men who cannot find work in their homeland.

In the process, the Navy obtains men who are willing to serve as stewards, messboys, houseboys and servants for the officers—jobs that American recruits have been reluctant to take.

The practice also provides free military servants for the White House. About 50 Filipino messboys are assigned by the Navy to work in the White House dining room, aboard the presidential yacht Sequois and at the presidential retreat in Maryland. At times, the messboys are required to work at private parties of White House officials.

Practice Defended In an interview, Adm. James

Holloway 3d, who as chief of naval operations has four Fil-ipino houseboys assigned to his living quarters, defended the practice of recruiting Philippine nationals into the Navy as a continuation of a traditional relationship.

A reason that the Navy has been "so slow to turn off the input of aliens" into its ranks, he said, is "compassion." Service in the U.S. Navy, he said, provides a "great opportunity" for Filipinos to earn and save enough money so they can return home in relative affluence. For some of the Filipinos, however, enlistment also provides an

For most of the Filipino recruits, their job is to serve in "officers country," cleaning the quarters and making the beds of officers and preparing and serving the food at officers' messes. In recent years, however, the Navy has lowered the caste barriers which had limited the role of Filipino enlisted

Starting in 1971, Philippine na-tionals were enlisted as "seaman recruits," not as stewards, thus in principle opening to them other enlisted ratings. According to the Navy, 13,700 Filipinos are serving in other than steward

Two in Agnew Case Are Jailed For 'White-Collar' Offenses

BALTIMORE, Nov. 25 (AP),— Turning aside arguments by prosecutors and defense attorneys. a three-judge panel sentenced two figures in the kickback case of former Vice-President Spiro Agnew to jail terms today.

Allen Green, a former consulting engineer, was sentenced to a year's term and \$5,000 fine by U.S. District Judge Herbert Murray. I.H. Hammerman, admitted bag-man for the former vice-president, was sentenced to 18 months in jail and a \$5,000 fine

U.S. District Judge Roszel Thomsen said that, although the court had no power to decide where the defendants would go, it would recommend they be in-carcerated at minimum security installations either at Danbury, Conn., or Allenwood, Pa.

U.S. attorney George Beall, the man who led the investigation of Agney, urged the court to refrain from sentencing Hammerman and Green to jail. Mr. Beall argued that it is nearly imposargued what is nearly impos-sible to prosecute white-collar crimes and political corruption without the aid of persons who are themselves vulnerable to

"It simply can't be discovered, much less presented, unless par-ticipants choose to provide the government with evidence," he

Mr. Beall told the court the inducement for the defendants' cooperation is that they "would be whom they testified against."

Agnew was sentenced to three years' probation and a \$10,000 fine after his plea of no contest to tax-evasion charges Oct. 10,

In his opening remarks, Mr. Beall said Hammerman and Green's testimony was "absolutely essential" to the prosecution of the former vice-president. And he said the usefulness of their testimony "does not stop here."

He indicated that more charges

based upon their story would be

Hammerman and Green pleaded guilty two weeks ago to charges of attempting to obstruct the enforcement of lederal

tax laws. -Chief Judge Thomsen said, "We are convinced that fear of con-finement is a deterrent to whitecollar crime."

"We've attempted to weigh what you are, against what you've done." Judge Thomsen told Hammerman. He said the court understood the need for plea bar-gaining, but we are convinced it would unduly depreciate the seriousness of the offense not to impose a term of confinement."

In Norfolk, Va., the judge who placed Agnew on probation said it was more important to get Agnew out of office than into iail. He said officials involved in the case feared that a trial might end in a hung jury and divide

Former U.S. District Judge Walter Hoffman also said in an interview for the Norfolk Virginian Pilot that the main concern of officials was to get Agnew out of office because they feared he might become president if Richard Mixon were forced out by Watergate.

Judge Hoffman said Agnew escaped a jail sentence because he refused to plead no contest to a after the management annound tax-evasion charge unless he was guaranteed of not going to jail. organization.

Catholics Se Saigon Marc **Against Thic**

Nonviolent' Protes Seen as Challenge

By Philip A. McComb SAIGON, Nov. 25 (WP) Catholic anti-corruption n ment warned the governmer a letter today that it will march Thursday.

If the march is held as plan it will represent the first that the Catholics have take the streets since the vi clashes Oct. 31 between de strators and riot police. Since then, Catholics, Budd

years away, near the southern edge of the constellation Cygnus.

edge of the constellation Cygnus, the swan. The span gives out a radio pulse every four-tenths of a second and filled out that pulse in the last three years, making it different from the 39 others pulsars in the heavens that have been clocked by the words largest radio telegroup at Aresto.

scope at Arecibo.
All the other pulsars are

spinning down, slowing up, if you will," Mr. Drzke said. "Not this one. We can detect no spin-

down in this pulsar, making it clearly a very different beast."

Pulsars are formed out of the

leftovers of an exploding star.

When first formed, they may

spin as often as 1,000 times a

and radio waves across space.

econd, sending beams of light

Like clocks, the pulsars in the

heavens are winding down and losing a little of their spin each year. This allows astronomers

to make what they feel are rea-

sonably accurate estimates of the

The Arecibo Observatory puts

39 of the 40 pulsars it has clock-

ed into an age bracket of be-tween 10 million and 100 million

years. None is older than 100

million years. The 39 stars are

spinning down in what Mr. Drake calls a "nice reasonable

Not the pulsar in Cygnus. No spindown has been detected, even

though Arecibo has timed its

pulse once a week for the last

Accurate Predictions

spinning down, then the pulse should arrive at 12 in the after-

noon, plus 43 minutes and 10.35 seconds, a year from now," Mr. Drake said. "And you wait a year, and the pulse comes back,

In calculating the age of the pulsar in Cygnus, Mr. Drake said

the youngest it can be is five billion years. Its upper limit is 45 billion years. The calcula-tions suggest that the 45-billion-

year age is more likely than the five billion years.

Mr. Drake said that everybody

at Arecibo is mystified as to what the star really is. He speculates

about the 45-billion-year age al-

most in disbelief, then admits that he has few plausible alter-

"One other thing it can be is

nething that can't be done

an intelligent civilization attempt-

cause everybody has said that's

how you'd mark yourself. You

in nature. You make the pulse rate of a nearby pulsar exactly

right, not deviating in the least

There are other explanations

for the pulsar in Cygnus, but

all of them have flaws. One sug-

gestion is that it is a class of

star called a "white dwarf," but

its spin rate of once every four-

tenths of a second is considered

much too fast for a white dwarf,

one possible stage of evolution

Most white dwarfs spin at the

slothful rate of once every hour

The shortest known spin for a

white dwarf is once every five or six minutes. A white dwarf

spinning at the rate of the star in Cygnus would fly apart.

A Neat Explanation

the star in Cygnus is draining from a companion star just

enough energy to make up for the energy it loses as it spins down. Others are skeptical of

this suggestion, saying that it's

just too neat an explanation that ster would drain precisely the energy it loses as it spins.

Thus, astronomers are left with

"If this thing is a repository of the last universe," Mr. Drake

said, then who's to say there wasn't a universe before that one

and another one before that?

Today's universe, although 12 billion years old, is still expanding. Many astronomers believe

There could be epochs upon

it will stop growing at some

distant time, possibly 50 billion

Then it will begin to collapse, contracting until space grows so dense with matter and heat that

another giant fireball forms to

start creation all over again.

Congress Gets Bill to Allow It to Call Presidential Vote

WASHINGTON, Nov. 25 (UPI). Sen. William Hathaway, D-Moine, has submitted a constitutional amendment that would allow Congress to call a presidential election if two-thirds of the Congress goes along with a no-confidence vote.

Sen. Hathaway said last week that federal power has shifted over the last 50 years to the White House, with Congress becoming "something on the order

of a simple irritant in the execmore power to the executive. Sen. utive's ongoing governing of the Hathaway said

This is not the work of sinister men consciously seeking to alter our established power rela-tionships," Sen. Hathaway said. 'It's the result of changes forced on the structure by outside social and political developments. During the last 10 years, Congress has gone along with every piece of legislation that has given

The proposed provision would

act as a deterrent to the abuse of power, the senator said. "And not having any of the moral or legal wrongdoing connotations of impeachment-after all, the president could even run in the new election—it should provide a more immediate and realistic threat than does impeachment," Sen. Hathaway said.

New Contract Agreed in U.S. Coal Strike

Miners Union Council To Study Pact Today

By Stephen Isaacs

WASHINGTON, Nov. 25 (WP). Negotiators for 120,000 striking miners and the coal industry agreed in principle on a new contract here last night.

This contract, like the one agreed to Nov. 13 but which falled to win approval by the miners Bargaining Council, will be put to the council tomorrow. Details of the contract were not revealed and industry negotiators would make no comment.

Arnold Miller, president of the United Mine Workers of America, with industry negotiator Guy Farmer standing at his side, read a joint statement of the UMW and the Bituminous Coa. Operators Association

So far, 23,000 persons in industries that rely on coal have been laid off and administration economists feel the number could rise to 400,000 if the strike lasts four weeks It will enter its third week as the Bargaining Council considers the new contract tomor-

contract presumably improves the first-year increase in wages for the three-year contract, as the council members had instructed Mr. Miller, Although the council set no specific targ.t. some members felt they should receive a 20-per-cent rise now, in view of the profits coal companies have accrued since the onset of the energy crisis.

If the Bargaining Council approves the contract, it will take 10 days more to ratify it.

High Court Holds That Mexicans Can Get Seasonal Work in U.S.

WASHINGTON, Nov. 25 (AP).—The Supreme Court ruled today that thousands of Mexican laborers may legally commute to the United States for seasonal farm work. The 5-to-4 decision is important to California and Texas

farmer's who rely heavily on foreign workers. The court reversed a decision of the U.S. Circuit Court in Washington, which outlawed seasonal commuting. But the Supreme Court upheld a portion of the Circuit Court decision which permitted foreign workers to enter the United States on

"If alien commuters are to be abolished or if seasonal commuters are to be treated differently than daily commuters, the Congress must do it," Justice William Douglas wrote in the majority opinion.

In 1965, Congress passed legislation prohibiting aliens from holding U.S. jobs unless the secretary of labor certified that there was a labor shortage. The Immigration Service later began issuing alien registration receipt cards, commonly known as "green cards," which allowed Mexican farm workers to take U.S. Jobs without the certification of a labor shortage. The court held that a "green card" is good for both seasonal and daily commuting.

New Tape Cameras Are Seen Transforming TV Newscasts

By Les Brown

NEW YORK, Nov. 25 (NYT). of hand-held videotape cameras have raised expectations throughout U.S. broadcasting of revolu-tionary changes in electronic ewsgathering that would, among other things, extend reporters' deadlines and increase the visual

More versatile than conventional newsreel cameras and requiring smaller crews, the new "mini-cams" are spoken of as promising to broaden the scope and variety of television news coverage. In eliminating the costly and time-consuming processing of film, permitting the cameras to be used in the field up to airtime, they would also

lengthen the newsgathering day by at least an hour. Not since the industrywide adoption of color television in

1965 has there been such intense

interest in new electronic hard-

ware and such anticipation of Weighing 14 to 18 pounds, depending on the make, and equipped with battery-operated recorders strapped to a cameraman's back, the cameras can reduce the present three-man newsfilm crews to a single operator, although the networks so far have been maintaining two-man tape units. Tape has the advantage over film of needing no processing

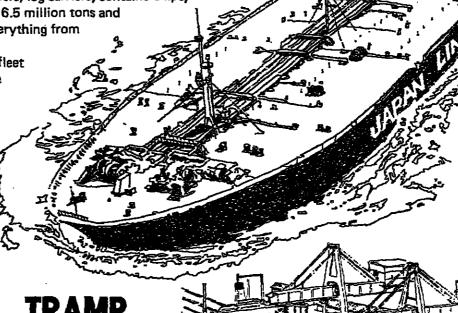

and of being cheaper and eras-

JAPAN LINE the bridge-building fleet

Bridging the gaps between the world's sources of supply and the world's centers of consumption is what Japan Line is all about. We operate a merchant fleet of about 16 million tons (one of the world's largest) on the routes of international trade. Our tanker department, with over 9.5 million tons of shipping at its disposal, has played a vital role in maintaining a stable supply of oil from the producing countries to Japan and other areas of the world where oil is the lifeblood of industry. For instance, in 1973, the company successfully carried out the direc

purchase of crude oil from the United Arab Emirates. To span the gap between demand and supply of other resources and materials Japan Line can call upon an extensive variegated fleet of ships - bulk carriers, log carriers, containerships, liners . . . totalling about 6.5 million tons and equipped to transport everything from bauxite to ball bearings. The growing Japan Line fleet is being fashioned for the

future to handle the ever-increasing trade between nations so that no matter where the demand, there will always be a bridge to the supply.

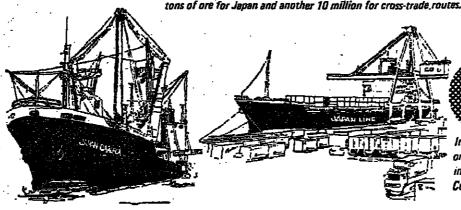

TANKER

fleet employs over 9.5 million tons of shipping in the transportation of oil and related products between producing countries and Japan, and also in cross-trade to Europe

of vessels to handle cargoes such as log, iron ore, coal and etc.

Our ore carriers, for example, alone load a yearly average of 20 million tons of ore for Japan and another 10 million for cross-trade routes.

In the liner department is a fast, efficient container service to U.S. ports on the Pacific Southwest, Pacific Northwest, New York and the Mini-land Bridge service in the U.S. Also available are 5 conventional liner services on the routes between Japan and New Zealand, Central and South America, the Carribean sea, and on cross-trade between China and Europe.

The Japan Line company stocks are now listed on the Frankfurt Stock Exchange.

'Breakthrough' in Vladivostok

While the experts must still play the numbers game with the Strategic Arms Limitation Agreements, it does seem that Messrs. Brezhnev and Ford made significant progress toward, as the President put it on his return, containing the competition in weapons. Mr. Kissinger has called the result of the Vladivostok talks a "breakthrough," and what that could mean in terms of lowered costs for the peoples of the two nations, and lowered tensions between them, is of major

The reduction in mutual suspicion and rivalry is, of course, more beneficial than the reduction in defense budgets. Mere parity in offensive weapons does not necessarily mean a peaceful atmosphere. When two duelists, in the days when that was an individual, rather than a national, preoccupation, were preparing to fight, their seconds made sure that they used twin weapons. carefully checked for equality of performance. Then the principals shot or cut one another down with identical materiel.

Nations are not moved by the finicky sense of honor that was supposed to govern the contests of gentlemen. They can usually find excuses for a stab in the back or a shot in the dark, and always believe themselves justified in developing better weapons and accumulating more of them than their potential opponents. Consequently, to seek an agreement on parity is in itself a healthy sign. But it is only a sign, and not inevitably the fact of peaceful relations.

It is not surprising, then, that the world at large, even if it welcomes the progress of the superpowers toward restricting the peril of that nuclear cloud which has hovered over the international horizon since Hiroshima, nearly 30 years ago, should also study the Vladivostok communiques for other signs of amity. They are there, with respect to Cyprus, for example, and the Middle East, but they are more nebulous.

The Soviet Union and the United States are clearly not wholly in agreement as to whether Mr. Kissinger should pursue his piecemeal attempts to bring about a Middle Eastern settlement, or whether the whole should be dumped, immediately, on the green table at Geneva. There is little specific evidence of just how-or if-the weapons of the big powers are to be used in attaining peace between the smaller states that have been using them against one another. And of the colossal dilemma that confronts the world over food and trade, nothing more specific is said than that commercial and economic cooperation will continue between the two states immediately concerned.

But, while the signs of cooperation toward peace are nebulous, they do exist. They have been stated in strong, if general, terms and the whole atmosphere prevailing at Vladivostok was hopeful, not only for the nations immediately concerned but for some approach to global stability at a time when those countries can and should exert their influence toward that goal. One could not expect President Ford and Communist party leader Brezhnev to wrap up all the complexities of the world at their first meeting, even with the expert help of Mr. Kissinger. But they have done more than might have been anticipated, and opened the way for greater things. The Vladivostok meeting may have provided a breakthrough on much more than the tools of war-it may have struck at the

The AT & T Case

The suit of the Justice Department to break up the American Telephone & Telegraph Company is of enormous importance in its own right. AT&T is the largest privately owned corporation in the world and communications is probably the most crucial sector of what has been called the postindustrial society. But the significance of the case goes even further, since its outcome will help determine the roles of competition, monopoly and government regulation in the emerging economic system.

The basic legal issue is whether the company has in fact conspired, in violation of the Sherman Anti-Trust Act, to monopolize the industry. Has it used discriminatory pricing or other "dirty tricks" to keep innovators out of the system? Has it illegally influenced government officials or regulators to protect its monopoly?

That AT&T is a regulated monopoly does not ipso facto make it immune from the anti-trust laws. In recent years, the Justice Department - with the backing of many economists—has been seeking to widen the scope for competition and innovation in the regulated industries, including not only communications but such fields as the securities markets, transportation and energy.

The economic issues in the AT&T case are more complex. It is not sufficient for the company to contend that it is efficient, maybe the most efficient telephone system in the world. That position, even if true, would not constitute an all-inclusive defense of the company's present size, degree of vertical integration or monopoly. The operation of the system and its particular parts must be analyzed more precisely.

The telephone company is not simply "a natural monopoly," as some of its defenders loosely contend. The manufacturing of telecommunications equipment. for instance, is surely no natural monopoly. Western Electric—the manufacturing arm of AT&T would and should face more competition from many other large and small manufacturers of equipment and terminal devices, if the Justice Department won its suit and separated Western Electric from AT&T.

The Justice Department also wants to split off the long line department from AT&T's operating companies. There could well be room for greater competition in longdistance communications - including the transmission of data - especially given the new microwave technology and the rapid growth of business, government and personal communications.

Particular care should be given to the proposed disposition of Bell Telephone Laboratories, which has the reputation of being the best private research organization in the country, perhaps the world. Critics of Bell Labs, however, maintain that it has been less productive and creative in the past decade and a half than in the 1940s and 1950s, blaming the parent company for holding back the pace of technological innova-

Anti-trust remains vital to the American economy. Competition should be allowed to operate unless the weight of specific contrary argument is overwhelming. Businessmen who like to expatiate on the virtues of the "free-enterprise system" often make an exception when it comes to private cartels or monopolies-especially those regulated (or, more precisely, sheltered and manipulated) by friendly government officials. Such sheltered monopolies can be both economically inefficient and a source of political corrup-

If the Ford administration means what it has been saying about favoring a vigorous anti-trust policy, it should not interfere in the AT&T case. Furthermore, it can show that it means business on anti-trust by throwing its support behind congressional action to increase the penalties on corporations and their officers for criminal violations of the anti-trust laws and to prevent collusion between government officials and

A more open and competitive system, with an independent and arms-length relationship between business and government, is crucial to the health of both the economy and a free political democracy.

THE NEW YORK TIMES.

International Opinion

Ford-Brezhnev Meeting

President Ford and Mr. Brezhnev have agreed to make another attempt to limit the arms race at the strategic level. If, as a result, their negotiators come up with an agreement that works and is adhered to by both parties, their weekend meeting will turn out to have been a very important landmark. Until then, it is reasonable to withhold judgment. The first SALT agreement in 1972 aroused hopes that have not been realized

Moreover, arms talks are only one thread -though an essential one-in the web of agreements on mutual restraint that are supposed to constitute the new relationship between the Soviet Union and the United States. In many areas, particularly in the Middle East, the web is now under severe strain. If it gives way at one point, it is liable to give way at others too. SALT cannot be taken in isolation...

November 26, 1899

PARIS-Offenbach's operetta, "La Belle Helene," was revived here last evening with great success. Henri Fouquier in the Figaro says: "The revival of this charming piece, which evokes so many memories of the past, had all the interest of a premiere and all the comic characters that used to make us laugh years ago and has all the lovely little tunes we used to hum, oh so many years ago."

Fifty Years Ago

November 26, 1924

TUCSON, Ariz.—A dispatch received here today tells of the marriage of Charlie Chaplin to Miss Rita Gray just over the border in Mexico. The famous couple are keeping their plans secret but it is already known that they have engaged a suite aboard a Pacific Coast liner. Miss Gray is Charlie's latest leading lady and will soon be seen playing opposite him in the "Gold Rush," as soon as the film is completed.

Kissinger's Peking Visit: Most Crucial Yet?

By Alfred S. Jenkins

WASHINGTON.—America's limited but significant rapprochement with the People's Republic of Chira is on the tracks so far, with "normalization" as the ultimate objective.

The practical aspects of the relationship are surviving, if not flourishing: two-way trade will probably approach \$1 billion this year, and cultural, scientific, educational congressional and other exchanges continue at a modest

While the basic relationship is likely to remain intact so long as the factors which impelled the rapprochement are still present -and they are—there has been little forward movement for some time, and the atmospherics are cooler than in earlier stages. Secretary of State Henry Kissinger's current trip to Peking could therefore be the most crucial

Kissinger's first trip in the summer of 1971, when he feigned illness and supposedly went to the mountains of Pakistan but instead went secretly to Peking, was primarily a trip to arrange a trip: President Nixon's visit to China in February, 1972. It was rightly made in secret because U.S. detente with China after 23 years of confrontation was a delicate diplomatic venture. for some reason it should fail, it was important that it not be a public debacle. Other nations had assisted in the initial contacts, and "ping-pong diplomacy" had tested public reaction; but until there were face-to-face discussions, neither side could be certain it would be possible to improve relations.

Not Easy

Indeed, rapprochement was not differences in ideology and in political, economic and social organization each side had deep historical grievances. The Chinese Communists resented U.S. refusal to extend them aid during World War II with Japan, and America resented their treatment of its diplomatic personnel left in China after the Communist takeover.

The Korean war left bitterness on both sides, and President Truman's institution of trade and travel embargoes, deployment of the Seventh Fleet in the Taiwan Strait and the resumption of aid to the Republic of China on Taiwan ensured lasting hostility, exacerbated by crises over two offshore islands. Poiemics exchanged throughout the protracted Warsaw talks did nothing to lessen mutual suspicions.

And for America's part, the trauma of the McCarthy era electrified the China issue, making U.S. officials hypercautious. The wonder is that rapprochement could be achieved at all

It was, nevertheless, accomplished with consummate skill chiefly by Kissinger and Premier Chou En-lai. A second Kissinger trip was required before the presidential one, for chiefs of state do not meet (or should not) unless they are fairly certain what will happen when they do. The second trip, in October, 1971, was to fashion that assurance. The representatives of two great nations which long excertated each other sat down and talked with unfailing civility, with as-tounding frankness and with evident sincerity of purpose.

Furthermore, each side listened. Certain misunderstandings were overcome and intentions were clarified. Some issues were resolved, some were shelved or, like the Taiwan problem "semi-shelyed": and sufficient common ground was found to warrant the history-making presidential trip. America's new China policy was embodied in the Shanghai communique at the conclusion of

Later Kissinger trips have been less dramatic but useful, particularly the fifth, which established liaison offices in the respective capitals. The Chinese almost certainly now believe, however, that it is time for further significant movement, notably on the question of Taiwan and the related one of diplomatic recognition. True, we have, as promised, reduced our military presence on Taiwan as tensions in the area have subsided. But we have also, with notable promptness, replaced our recently retired ambassador in Taiwan with an outstandingly able career diplomat; and we have cooperated, albeit modestly, in assuring the continued pre- other words, this is a relatively if we watched thousands or mil-

paredness of the Chinese military forces on Taiwan.

Peking views these moves as a curious way of implementing the Shanghai communique. Meanwhile, it can be argued that Peking has not been particularly assiduous in cultivating the spirit of that document. In the UN and in domestic media, the Chinese have been abusive of us to an extent far beyond what their principles and policies would seem to require.

In addition to disapprobation of our "imperialistic, superpower" stand in general, the Chinese are signaling dissatisfaction with the pace of our movement on the Taiwan problem—despite occasional protestations of patience. Yet the Chinese leaders are realists. They know that we helped in the very survival of the government on Taiwan (after the Korean war changed our policies overnight) and contributed to Taiwan's "economic miracle." In view of America's long and friendly, not to mention profitable, relationship with Nationalist China, they cannot expect the

United States to shrug its shoul-ders and simply "abandon" it. The question in crass terms boils down to the weighing of our undeniable responsibilities toward and interests in Taiwan as against our responsibilities as a global power to get along as well as feasible with the quarter of manking on the China mainland -to the extent these desiderata prove to be incompatible.

We have correctly considered resolution of the Taiwan problem to be a Chinese responsibility. We could not "hand over" Taiwan even in the unthinkable event we should wish to do so. Its military potential is considerable, and there are other realities. The The est difference in political economic and social systems and the much higher standard of living on Taiwan would make the island indescribably difficult to "digest" the People's Republic, should it attempt assimilation by any means. Taiwan is likely to keep its head above water no matter what we may do, but what we do nonetheless matters considerably and the choice and timing are not easy.

Having recently retired, I am

no longer privy to the planning for these visits, but it is certain that Kissinger goes armed with formidable documentation of the options, and the advantages and disadvantages of each. His choice of options will depend in good measure on the realism of the Chinese. Only a few weeks ago. Chinese maneuverability would have been restricted by the latest domestic political campaign, but that has been allowed to wane because of damage to produc-A remaining danger is that the Chinese may exaggerate U.S. domestic difficulties, believe that America speaks from weakness and attempt to gain excessive advantage. This would be a grievous error, for America still speaks with a very strong voice indeed, and the Chinese are not without serious domestic problems of their own.

Still Anxious

Fortunately, there is reason for each side to want to see the relationship continue and improve. Advantages in trade and technological exchange and in reduction of tensions have been mutual. The Chinese are still anxious about the Soviet military confrontation / on their border.

The chances, then, are for a easonably "successful" visit by Kissinger this week-one which further cements the Washington-Peking relationship without serious damage to at least the practical aspects of the Washington-

Taipel relationship. This progress might be achieved by a substantial increase of U.S. liaison office functions (it was promised once before, with meager results), but full diplomatic recognition might not be inconceivable if the price were right (largely in terms of U.S. continued relationship with Taipei on an acceptable basis).

U.S. recognition of Peking, however, would be a blow to Taiwan which we would be very reluctant to administer. In any event, such a step should not be considered without prior warning to Taipel that it was under consideration. Furthermore, the possibility of an early succession problem in Peking, and undeniable remaining instabilities in China's hierarchy, argue against taking irreversible steps now,

If Peking should prove importunate, the temptation could be strong for a confidential, temrizing agreement concerning the future. This would be unwise. The scenario so far has been carried out with refreshing forthrightness. Imprecisely faced problems would surely come back to haunt us, and important elements in the equation (third countries and even parts of our own government) could act from ignorance in ways which would be damaging.

On balance, enlarging the functions of the liaison offices appears to be the best course for now, based on what can be known publicly. No one else, however, has quite as many of the pieces to the complex Chinese puzzle as does Kissinger. If he has enough of them, from my association with him throughout most of the "opening to China." I am strongly disposed to trust his judgment in affairs Chinese. If he should shumble, he is more likely to stumble over himself than anything else, for very, very few men in history have been big enough to surmount the adulation with which he is hand-

Alfred Jenkins was the senior deputy, chief of mission in the American Baison office in Peking before his retirement last summer rs in the Koreian Ser. vice. The only American diplomat to serve in China both before and after the Communist repolution. he worked closely with Henry Kissinger in the "opening to China." This article was written for the Los Angeles Times.

U.S. and World's Hungry

By Anthony Lewis

BOSTON-It is a troubled straightforward problem compar-Thanksgiving, Americans are still a privileged people, with material comforts extraordinary by the standards of history or of almost all the world today. know that, but we wonder wheth-

er it can last. People all over this country are scared. They are wor-ried about their own futures their jobs, their homes, their way of life. They doubt the competence of government to deal with the problems of the country. And there is a deeper unessiness things are out of joint in economics and politics and the resources that sustain life.

Food is a particular symbol of unease right now. Americans are increasingly conscious that food is desperately short in parts of the world, that hundreds of millions are malnourished and may die of starvation unless helped are still a generous people, but we wonder: Is there anything clearly useful to do? Can we give aid without aggravating our own problems? Is there, in short, a connection between helping others and helping ourselves?

Immediate Questions In exploring such questions it is important to distinguish netween the long-term and the immediate. Any attempt to look decades ahead at the world food situation must raise profound issues of population and resources and ethics. The Rome food conference made a reasonable start on mechanisms to deal with the future. But right now there are practical problems that have to be solved if the longer-rum ideas are to have any chance of deval-

The immediate problem is thatsome areas of the world notably South Asia, are short of grain. There is no doubt that the shortage is severe. Estimates of the need range from six to 10 million tons over the next year.

The grain needed can come from only a handful of surplus countries: the United States primarily, plus Canada, Australia, the European community. In ed to many that the world faces today It is a problem of transferring food from known sources to agreed shortage areas.

The United States, because of its immensely productive agriculture, has an inescapable responsibility for leadership in meeting the need for immediate food aid During the Rome conference, President Ford rejected a call to pledge an additional one million tons, saying that would add to inflation at home. But in fact his administration has tentatively and secretly decided to send um to three million tons more in the next year, while withholding firm commitment until a fresh review every three months.

Secret plans for aid, subject to quarterly review, have a fatal flaw in terms of effectiveness. The needy countries can make no. plans on such a besis plans distribution of aid or use of internal stocks. In the absence of firm expectations of outside help, the tendency in hungry areas will be for those who have any food to hoard it—thus worsening price and distribution problems. To be effective, American action has to be swift, decisive and

public. The occasion for dec is a meeting in Rome on Friday of the principal grain-exporting countries and of the most needy. to see what can be pledged for the latter.
A number of organizations con-

cerned with the food problem are pressing the U.S. government to pledge shipment of two million tons immediately and two million more next summer contingent on matching contributions by other countries. It is important to get the wheat and rice moving soon, because it takes weeks to arrange and accomplish shipping on so large a scale. And unless commitments are made now, the available grain may go for other commercial uses.

Why, then, is it in the interestof the United States to make fresh commitments of food aid? What is the connection between us and them?

The answer may be clearer if we ask the question another way: What would it do to Americans

lions die-literally watched, on television-because we and the world had not acted? Putting aside all considerations of numanity, the result would surely be to weaken further our already frayed confidence in the ability of the system to deal with today's

problems The point is that the immediate food shortage is a welldefined problem, with a definable solution. If the world is not up that, how can it be expected to handle the greater complexities of energy and resources and inflation, Mass starvation would be an unmistakable signal of institutional failure. It is a far-off people today, Americans may well think, but it may be our life sav-ings and our expectations that

Thanksgiving is a day of food but it is hardly an expression of greed or self-satisfaction. Rather it is a recognition of the debt to God and nature for their bounty. Those who first celebrated it, in Plymouth in 1621, invited the nearby Indians to share the Generosity has been a natural

instinct of Americans, Today it can serve a larger purpose. By sharing food with the hungry we can allay the widespread feeling of impotence before the strains contemporary life, and begin of man to solve his problems.

A Passive Role Played By Reagan

By Evans and Novak SACRAMENTO - Gov. Ronald Reagan, his recent notions of

leading a new political party crushed by vital financial back. ers, has abandoned even shrouded plans for challenging President Ford in 1976 either inside Gr outside the Republican party. Most Reagan advisers and

probably Reagan himself now believe Mr. Ford really will seek a full presidential term as he "I think it's all over for us," laments one Reagan in sider. If so, Mr. Ford's ear., announcement of candidacy has fulfilled a major purpose. Nevertheless, melancholy

Sacramento is no cause for un restrained jubilation within the Ford White House. Reagan does not dismiss the possibility that Mr. Ford's record will be so use by 1976 that he will have to abandon his candidacy; Reagan then would be the most probable nominee, Furthermore, Mr. Fords prospects for success may not be enhanced by Reagan's intended public role as an ideological po-liceman to direct the Ford administration into conservative orthodoxy.

But this passive role was not what Reaganites envisioned only a month ago when they felt Mr. Ford, his political stock dropping after the Nixon pardon and the hospitalization of his wife, would not run. That certainly seemed Reagan's view after returning from national barnstorming fer Republican candidates in September and early October.

While lionized at Republican rallies, Reagan noticed a strange phenomenon: the name of Gerald Ford was never mentioned as these partisan events. When Reagan and his aides compared notes after rallies, they agreed there really seemed to be no incumbent Republican president: L was as though a Democrat were in office.

This perception of Mr. Ford a a transitional figure was vaulting Reagan over the highest psychological hurdle to a 1976 challenge. What friends call Reagan's "veneration for the presidency" impelled him into baseless de fenses of Richard Nixon: so, be could not really be expected to oppose an incumbent Republican President. But if politicians perceived Mr. Ford as merely transitional, not really an incumbent,

it might be different. Contrary to denials, a possible new conservative party was indeti discussed within the Reagan inner sanctum. Other California Re-publicans say the principal source of third-party notions were tr Reagan aides: Robert Walter a tough, experienced political pla and top Reagan adviser since 1968, and Jeff Bell, a smart young political theoretician hired last

summer to plan Reagan's fall

But when Reagan publicly voiced inner sanctum third-party his Oct. mento press conference, consertative Republican politicians in California and elsewhere relayed dismay. That includes Californ.2 Republican money men who are not only Reagan's benefactors but his most influential advisers. The most potent: millionaire Les Angeles auto dealer Holmes Tuttle, a staunchly loyalist Republican who urged the governor

to abandon third-party talk. Besides, key Reagan advisers believe that nomination would not be worth having if Reagan had to battle an incumbent president in 25 state primaries. Thus, Mr. Ford's announcement after the Nov. 5 election that he definitely would run in 1976 extinguished residual hopes in the Reagan camp.

Watchful Waiting

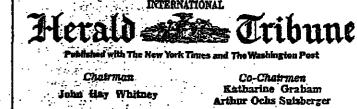

Tuttle now talks privately of watchful waiting with no attempts to build a national organization. Walker and Bell will leave Reagan's staff when he ends two terms as governor on Jan. 6. This scaled-down threat is reflected in Human Events, the right-wing weekly pushing a new Reaganite party. On Nov. 23 Human Events grumpily observed that "Reagan's latest comments look as if he has decided not to cross swords with the President.

but to excuse his left-wing abor-

rations in much the same way as

This relatively passive role comports with Reagan's philosophy that his final political fate is in divine hands, beyond his own control. Reagan tells friends the Ford presidency may take three possible directions: successful leading to Mr. Ford's election: middling, leading to Mr. Ford's nomination and defeat: poor leading to Mr. Ford's not running. Only in the latter case would Reagan run, and today he is against direct action to bring about that condition.

Giscard's Popularity Slumps; Labor, Press Troubles Cited

By James Goldsborough

unrest and strong criticism in the French press have caused President Valery Giscard d'Estaing's popularity to hit its lowest point yet in the opinion polls. A new poll published today by

Le Pigaro was headlined: "Ab-Solute Record for Pessimism: 77 Per Cent." The poll showed that 77 per cent of persons interviewed thought the economic and social situation would get worse: 63 per cent thought it could bring on a new May, 1958, mass revolt and only 42 per cent thought Mr.

Giscard d'Estaing could manage it. A Prance-Soir poll published during the weekend showed that the President's popularity had fallen to 48 per cent, from 50 per cent, and the number of persons unsatisfied climbed from 32 to 38 per cent.

To try to counteract the pessimism that has broken out here and to counter the anti-govern-ment press, Mr. Giscard d'Estaing will go on television tomorrow night to address the nation on the situation.

The government's decline in the pells would appear to be directly related to the wave of strikes that has hit the country and growing unemployment. There is a strong feeling that the government favors an unemployment policy, which would be unprecedented in France, to fight infla-

Monde's criticism of the government's firmness in the sixweek-long postal strike has been growing almost daily. That strike, which began slowly dying out last week, included 45 per

PARIS, Nov. 25 (IHT).-Labor cent of mail sorters today, the Post Office reported. In Paris, however, 85 per cent of the sorters still are off the job. The press and radio criticism

of the President has been getting increasingly personal. The lead article in Le Monde today said simply that "technocrats" such as Mr. Giscard d'Estaing could not cope with today's problems. Only a planned economy would work, said the author, Roger-Gerard Schwartzenberg.

"Great statesmen find in themselves and in the times the strength for their policies because they have culture, conviction and human experience." he wrote. "Our technocrats more often have only a pragmatic savoir-faire, limited science and a few mannagement recipes."

The harshest personal campaign against Mr. Giscard d'Estaing has been in Le Canard Enchainé, the satirical weekly. It has been claiming for weeks that the President leads a playboy's nightlife that raises ouestions about both his own and national security.

Elysée sources recognize that a whispering campaign is under way to discredit the President for bringing a different kind of lifestyle to the Elysée-Palace.

The effect of the criticism has been to suggest that neither Mr. Giscard 'd'Estaing's policies nor his personality is right for France in the present situation. The progovernment France-Soir commented tonight that the stakes in Mr. Giscard d'Estaing's telecast tomorrow night would be his own

BACK IN PARIS-Le Duc Tho, chief negotiator for North Victnam at the peace talks in Paris, returned to that city yesterday at the head of a delegation invited to meet with the French Communist party. He was greeted at the airport and presented a bouquet by, among others. Roland Leroy, a French party official.

Caramanlis Attacks 'Stagflation' in Greece

By Steven V. Roberts

ATHENS, Nov. 25 (NYT) .-The new government has vowed to deal decisively with this country's classic case of economic "stagflation"—a term used to describe a sluggish growth rate combined with rapid inflation.

In his first speech to the cabinet Friday, Premier Constantine Caramanlis cited the economy as one of his highest priorities, just behind the Cyprus crisis and the reform of political institutions.

Greece's economic problems are hardly unique in the West, but this nation of 8.5 million population faces two special difficulties: It is still recovering from more than seven years of military rule, which ended in July, and it is still in a stage of development that makes it particularly vul-nerable to outside influence, such as higher oil prices.

On the positive side, Greece has just elected a strong government with a large majority in parliament. This gives Mr. Caramanlis the authority to carry out his programs and gives the business community renewed confidence.

In 1973. Greece had one of the highest rates of inflation in the world, more than 30 per cent. This caused the military regime to exert extreme measures, such as severe credit restrictions. By the time the civilians took power four months ago, inflation had eased, but the economy was skidding toward a recession.

The Caramanlis government has tried to revive the growth rate by lifting credit restrictions, raising minimum wages and abolishing a crushing tax on new construction. Panayotis Papalygouras, the new minister of economic coordination, explained

"In a country at this stage of

cause a social revolution. People here have gotten just enough to be awake, but not enough to be satisfied, and that's a very

dangerous phase." Industrial production rose in September and the government recently announced two foreign investments totaling more than \$500 million. But the projected growth rate for this year is still

Efforts to stimulate the economy cannot get too aggressive

to worry about inflation, running at an annual rate of about 15 per cent. An equally troublesome problem

the balance of payments. As developing country. Greece cironically runs a deficit, but it is usually covered by "invisible" earnings from shipping, tourism and remittances from workers abroad.

This year, however, tourism and remittances are down sharply and even a 50-per-cent surge in shipping has left a sizable gap.

Ceausescu Backs Sovereignty But Stresses Ties to Russia

BUCHAREST, Nov. 25 (UPI) .-President Nicolae Ceausescu to-day opened the 11th Romanian Communist party congress by reaffirming his nation's independent foreign policy but adopting a conciliatory line toward the Soviet Union

Addressing 2,500 delegates and 140 foreign delegations in the capital's main Congress Hall, Mr. Ceausescu reiterated Romania's stand that all nations have the right to develop their foreign and domestic policies without outside interference.

He also opposed Soviet-led moves to call a European and, possibly, a world Communist conference, which the Russians want to expel China from the Communist movement.

"Our party should continue to avoid in the future involvement in actions condemning other parties." Mr. Ceausescu said. He has resisted Soviet pressure to sever party ties with China.

"It is necessary to observe the right of each people to choose the social system it destres without any outside interference and to the right of each nation to independent economic and social development," he said.

But along with his implicit refection of the so-called Brezhnev Doctrine by which the Soviet Union defended the invasion of Czechoslovakia in 1968. Mr. Ceausescu stressed the need to improve relations with the Soviet Union and other Communist countries, particularly in the economic sphere.

In his 15,000-word report to the meeting, the Romanian leader praised the Soviet contribution to detente and said that the Soviet Union ranked first among Romania's economic partners and urged greater economic and trade cooperation between Warsaw Pact nations.

Diplomats said that Mr. Ceausescu's stress on economic ties with the Soviet Union was not unexpected because the current world commodity shortage has made Romania aware of its dependence on the Soviet Union

Canada Debates a New Issue: The Color of Its Immigrants

By William Borders

TORONTO, Nov. 25 (NYT).— Mrs. Ann MacDonald, a widow who lives in a little old house in a part of Toronto that is shabby but still proud, has grown worried and afraid, and her fear tells the story of what is emerging in Canada as an agonizing nadonal debate.

"Foreigners have always been welcome in this country, and we thought we had a very tolerant society," Mrs. MacDonald explained. "But the way they're coming in now, they're changing the whole nature of the place and I just don't know if that's what I

What concerns Canadians like Mrs. MacDonaid is that there is a sharply higher proportion of blacks and Asians among the immigrants to Canada, who used to come almost entirely from Europe and Britain. To a society that has traditionally been overwhelmingly white, the new immigrants are bringing in unaccustomed racial diversity—and some racial tensions as well.

The government, which has asked the people to speak out on immigration, made a preliminary move to tighten the entry rules last month and it is planning to publish a comprehensive review of the subject next year.

A Kind of Racism

Meanwhile, as the discussion continues all the way from the House of Commons in Ottawa to the pulpits of churches, many Canadians are discovering a kind of racism that they thought existed only in other countries.

"People here always talked about the Americans being the ones that discriminated, but now it's turning out to be a lot closer to home," said Charles Roach, a black civil rights leader who came here from Trinidad 20 years ago.

In common with many other persons in Canada, Mr. Roach thinks that it is the government's goal to cut down on the number of blacks and Asians who are coming here and that the new immigration policy will try to do that, one way or another.

Statement on Policy

In Ottawa, the government insists that the immigration policy is color blind and that policy changes will be designed simply to insure that Canada does not accept more people than it can accommodate. As Robert Andras, the minister of manpower and immigration, declared in Parlia-

"It would be irresponsible for the Canadian government to admit more immigrants than we can adequately provide with fundamentals such as jobs, housing and social services."

But on the streets of Toronto.

the city that attracts the largest number of immigrants, the government's talk about what one report calls "the absorptive capacity of the Canadian society translates into this fundamental question: How many blacks?

Underpopulated Land

At a time of heightened concern about famine and overcrowding in other parts of the world, some Canadians are feeling guilty about the abundance of food and oil and minerals in this vast, underpopulated land, which is second in size only to the Soviet Union, and they advocate opening the door wider. On the other hand, as a young businessman in Calgary, Alberta,

"Say Canada took 22 million people from India, doubling our population. It wouldn't really do India very much good but it would make Canada a totally and completely different place, and what would we have accomplished?"

The government, which expects to grant immigrant status this year to 200,000 persons, says applications are running at a rate of 48 per cent above last year. This country has no stated ethnic or national quotas: instead, an applicant is admitted if he gets 20 points on a 100-point scale that covers such criteria as his education and oc-cupational skills.

Head of OPEC Calls Oil Crisis 'Shock Therapy'

VIENNA, Nov. 25 (UPI).-The oil crisis was not all bad, the chief executive of the Organization of Petroleum Exporting

Countries said last week. "The oil crisis acted as a form of shock therapy and achieved a good purpose, which may eventually bring about goodwill among mankind," Abderrahman Khene,

secretary-general of OPEC, said. "Many obvious signs preceded this crisis, but little was done about it," Mr. Khene, of Algeria, said in a speech to the Damube-

European Institute.

Similarly, the rich nations of the world have ignored early warnings of a possible food crisis because they felt that they were self-sufficient and would not suffer, he said.

the energy situation, it is becoming evident that the wealthy nations can be affected and could suffer." Mr. Khene said. This, he added, could prompt speedier reaction to other pos-

John Brooks

U.K. Ex-Mayor Gets Halfpenny In Libel Award

LONDON. Nov. 25 (AP).-A bottom-spanking former mayor of London's Kensington and Chelsen today won a libel suit in the High Court of England-but was awarded a halipenny in damages.

John Elliott Brooks, a 64year-old solicitor described by his lawyer as a "larger-thanlife character." had sucd the Sunday People newspaper after it published an allegation that he was a "menace to young girls" whom he lured into a spanking "sex trap" aboard his yacht.

Mr. Brooks claimed that the newspaper article brought him "hatred, scandal and odium." But during the weeklong trial, he told the jury of nine men and three women that during the last 10 years he had spanked about 14 girls in "friendly horseplay"always with their consent.

A defense witness, Sue Carr, 21 alleged that Mr. Brooks spanked her against her will. Her disclosures to the newspaper brought about the case.

"For the first time, thanks to The jury took three hours to decide that Mr. Brooks, married for 27 years and the father of two grown-up children, had been libeled. But the defense called the award of a halfpenny in damages sible crises and produce remedies before the crises become too "contemptuous."

According to Mrs Ford the greatest development in telephone exchanges happened just one year ago. different forms of transmission at one and the same time. Mrs. Florence Ford has spent 45 years at one of the hubs Speech, telegraph, facsimile and data.

of the communications network of the giant Courtaulds

Over the years she has used four different plug and cord type exchanges to handle the ever-increasing flow of national, international and inter-group telephone traffic. This all changed a year ago when the operators were provided with neat, compact press button consoles as part of their new Ericsson system.

As Mrs. Ford says, "The new board does everything for

you". This new switchboard is interconnected with many others throughout the group over the new Courtaulds private wire network—a network that extends throughout the United Kingdom. It utilizes several Ericsson fully automatic trunk switching exchanges designed to carry four

During the first year of operation the savings on intergroup telephone call charges and the saving on waiting time for connection between distant premises alone have more than justified the initial cost of the new Ericsson

exchanges. The Ericsson Group, with world headquarters in Stockholm, Sweden, specializes in the development of better telecommunications. Manufactures, markets and installs all kinds of public and private telephone exchanges,

telephones, transmission equipment, cables, wires and network supplies.

Paying Homage to Tunisian Heritage

By Hebe Dorsey

PARIS, Nov. 25 (IRT).-Josetta Bensmael is proof that designing talent is to be found in unexpected places.

She is a Tunislan housewife, the mother of two, who, without sewing experience, started three years ago "making dresses for myself: Then, I lent them to friends and before I knew it, I had a clientele."

Mrs. Bensmael was born in 'Algeria of Italian parents. She has lived in Tunisia since her marriage to a Tunislan publisher and knows Tunisian folklore well A tall, buxom woman, with hair tucked up in a red bonnet. she is an individualist. Even in the daytime she wears her skirts to the floor. "I always wore long skirts" she said, "even before they were fashionable. Never liked short ones."

The dresses she designs are soft, an homage to the Tunisian heritage.

Hand Details

Everything, down to the last tuck, is done by hand with such refined details as crèpe georgette

The range is beautiful but limited, mostly hostess and evening gowns, which can double up as wedding gowns. The hostess gowns are made of that basic, homespun and handwoven fabric known as haik—which is used to make the eggshell-colored veils in which Arabe women drape them-

"When I get it, it often smells to high heaven," Mrs. Bensmael said. "It takes several washings in order to get rid of the smell."

in Tunisian

Although many of her dresses are in natural colors, she also has a beautiful bright turquoise "which is dyed in the souks according to a century-old tech-

The hostess gowns are very simple-wide, floating tents, cut on the bias with big, flared sleeves. What lifts them out of the ordinary are their solid silver belts that Mrs. Bensmael takes from old Tunisian dresses. collect antique dresses," she said, and often copy the embroideries. Unfortunately, they are getting harder to find."

Evening Dress The evening dresses are more

elaborate, inspired by Mexican wedding dresses, with the typical nixture of lace and ruffles. Mrs. Bensmael insists that everything be done by hand.

"We also eliminate seams by working directly on wooden dummies," she said, "so the dresses are literally molded."

AUTHORS WANTED

As a result, "we spend eight to 10 days on a single dress," she added. However, with a staff of 10. Mrs. Bensmael said she can

The evening dresses are all of the same basic shape: a romantic deep lace bertha-type neckline with two huge carnations at the waist. The sleeves are wide and ruffled and the skirts are up to

make three dresses a day.

Variety comes from the way Mrs. Bensmael mixes crêpe georgette, cotton voile and lace. The quality is high. "I ordered a beautiful Calais lace," she said, "but it was so expensive that the man told me he did not make it any more. He got a small production going again, just for

After taking care of the local market, Mrs. Bensmael started selling to small boutiques in Paris.

Marie Martine, spotted her. Now, her dresses rate first-class display at 50 Paubourg Saint Honoré and 8 Rue de Sèvres. "We joined Marie Martine six

months ago and we have aiready Davidson says. sold over 200 dresses," she sald. Impressive for dresses costing from 1,500 to 3,500 francs. But that proves that no publicity, no gimmick is needed with a fresh, honest talent. "The dresses," Mr. Salem said, "sell themselves."

MARY BLUME.

A Diplomat, Pa Beuk And Some Sienese Saints

PARIS (IHT).—British diplomat Alan Davidson was posted to Tunisia, where he gazed daily upon the Mediterranean from his house on a Carthage cliff, then to NATO the southern flank of which, as he points out, includes Mediterranean countries From these posts came a book that can most succinctly be described as superb: "Mediterranean Seafood" (published by Penguin and, in France, under the title 'Poissons de la Méditerranée," by

For the past year Mr. Davidson has been Her Maiesty's ambassador to Laos, a mission that at first filled him with dread. 'I worried about it having no coast-line, I hadn't realized how rich the Mekong was," he said over lunch. "So I quickly extended my interest to freshwater fish." Resuit: he is writing a book called Fish of Laos."

On the side, he is writing "North Atlantic Seafood," and soon after eating his soufflé de barbus Paris he and his American wife would be off to the Orkneys. in Scotland, to study wind-blown dried fish and to go specting.

Spoots are found inside razorback clams and are a delicacy in Orkney, "I once saw a personal advertisement in a newspaper," Mr. Davidson said. Wanted: Spoots, spoots and more

spoots! Mr. Davidson, who took a double first in Classical Greats at Oxford, is neither an ichthyologist nor chef, but his interest in fish is, he says, part of the British diplomatic tradition. "The Mediterranean is particularly rich in consuls who are inested in cookery." He also got help from the United Nations, from Mr. Hugh Whittall of Istanbul, who contributed a recipe for Coarse or Tasteless Fish, and from Signorina Luigina Testi of Orbatello, Italy, who took him round an alarming establishment where the famous local eels are electrocuted before being smoked. "I'll never forget her. Golly!" Mr.

Not Difficult

"It's not usually too difficult to track down people who know about fish. And they're always nice people. They're almost by definition most agreeable. They're constantly digging out unpublished manuscripts and saying, look

At diplomatic dinners, fish as a subject cannot be best, "Politiclans in Lacs come to life when you talk about fish," Mr. David-

As well they might, for Laos boasts a marvel called Panausianodon gigas, whose Lao name is Pa Beuk or huge fish and whose English name if it had one might be the giant Mekong catfish. It is extremely rare, entirely baffling in its history and habits, even to the Lao, and it is the world's second largest freshwater fish:

"The largest is a very boring and less handsome fish in Europe which I'm rather skeptical about as no one's caught one for some time," Mr. Davidson says.

With some difficulty, he got the 106-pound head of a Pa Beuk that had been caught in the village of Houei Sai and had it frozen and sent, with frequent changes of ice and the help of British Air, to the British Muby sending them one vertebra, they got very excited," Mr. David-

Asked what the Pa Beuk tastes like, Mrs. Davidson replied veal and Mr. Davidson said abhh. He is hoping to persuade the British Museum to cut a slice off the frozen head for cookery writer Elizabeth David, whom he worships, but it's unlikely they'll part with an ounce as they have already asked Mr. Davidson for more pieces to study.

A Feast

'It's difficult as the Lao eat every part of it. The vertebra I sent I had fished out of a soup at a village feast. Imagine how long it would take to assemble the entire spinal column."

The fish of Leos is a less obscure subject than it may seem, for the fish trade is widening greatly. Recently, Mr. Davidson asked his Billingsgate fishmonger for a baby hammerhead shark which he intended to prepare for some ladies, and instead of coming from the Mediterranean as expected, it arrived on the next plane from Hong Kong. "One might soon find Indo-Pacific fish in Paris and London, all of which will I hope create a strong demand for books that deal with these fish," he says.

Before going so deeply into fish Alan Davidson especially enjoyed doing paintings, in the Sienese style, of little known saints, "The

saint I took a particular fancy to is St. Neot," Mr. Davidson says. "There are several St. Neots recorded in England, but this particular one was a very diminutive saint who came from London to Cornwall on a cabbage leaf.

When he arrived in Cornwall he did very good work in con-verting the Cornish people, but his greatest thing was helping animals. He was handicapped in this on all sides e.g., he would discover a lamb that had fallen into a well and he'd go in to get it, and as he was too small to get either himself or the lamb out, someone would have to come rescue them both."

Flinched Once

In researching "Mediterranean Seafood" Mr. Davidson ate some awful sounding creatures but flinched only once, at the Microcosmus sulcatus, or violet de mer in French, which is knobbly, with a leathery skin and a yellow inaide that looks like scrambled egg and is eaten raw and, one assumes, quickly. His diplomatic background

shows in his foreword where he discusses the implications of closing the Suez Canal (the rabbit fish and relations of the red mullet are flourishing again) and the building of the Aswan dam (terrible for sardines). His scholarship is astonishing and his demands on typographers terrible: in addition to the Latin and En-

glish, he gives the names of fish in French, Greek, Italian, Spanish. Turkish and the Tunisian version of Arabic, as well as some Catalan, Serbo-Croat and Maltese. "Turkish spelling," he sternly adds, "is variable, and the un-dotted "I in many Turkish words is meant to be undotted."

Names of fish are in any case misleading: Dover sole and Dublin Bay prawns abound in the Med-iterranean, what the English call a brown shrimp is gray in French, what the wily Venetians refer to as veal of the sea is more appopriately, called the stinkard by the Irish. Mr. Davidson gives the amount

of electricity discharged by large specimens of rays (220 volts/8 amps), warns that the backbone of the garfish turns oright green when cooked, and points out that the skin of the angel shark can be used for furniture polishing while its flesh is tasty enough to be tucked under the mayonnaise of many "lobster" dishes. The recipes in "Mediterranean

Seafood" are refreshingly straightforward, but almost the best part of the book is its bibliography. which ranges from a pamphlet called 'The Humane Killing of Lobsters and Crabs" to the Greek poet Oppian who, as Mr. Davidson points out, was inclined to praise or bisme fish according to their morals rather than their

this sort of change adds up to

dubon's favorite violin.

Audubon, says Mr. Davidso took his revenge by presenting Rafinesque with a wholly spuring collection of drawings of fish its the Ohio River. Poor Rafineson later described them in goa faith, and ruined his reputation

Opera in Londer

'Courageous' **Production** Of 'Faust'

By Henry Pleasants

ONDON, Nov. 25 (IHT).-Pm adoxical as it must seem, the Royal Opera has shown great courage in mounting a new parduction of Gounod's "Faust." Time was when "Faust" was s popular, and played so often in the Met, back in the Gay No tles, used to be called the "Faus spielhaus." Everyone coul whistle the "Soldiers' Chart.

every tenor sang "Saint Demeure," every baritone sang Valentine's cavatina, often in th original English as "Even Brat est Heart May Swell"; every has sang Mephistopheles' "Eerenads and "Calf of Gold," and all so the long trill at the beginning of

the "Jewel Song." A splendid exhibition of photo and playbills in the foyer of the Royal Opera recalls those into cent times: Patti and Melba a Marguerite, Tamberilk, Mario an McCormack as Faust, Edouard d Reszke as Mephistopheles Gra ziani as Valentine, and man more, How long ago it a seems, and how long ago it all it

Prior to Friday night's premier "Faust" had not been heard Covent Garden since 1938. Received opinion has it the "Faust" is hopelessly pretty, hope lessly sweet, hopelessly tunch and hopelessly old-fashions These adjectives and there a none of more pejorative connots tion in the vocabulary of con temporary criticism—could beard from the mouths of criticism in the lobby during the inte

mission. But the house was fu and Floral Street outside, befo the curtain, was lined with the hopeful displaying pound notes The Royal Opera has show even greater courage with a pr duction by John Copley, design by Desmond Heeley, that defa contemporary theater fashion. accepts "Faust" as a period piet

which most operas are today, at presents it, as period plea should be presented, in perk With the exception of a mik ly impressionistic prison seen this is a "Faust" much as it mu have looked at its birth in 185 including a garden scene with leaves, blossoms, lattice, shrit

and gate, all in place and c plicitly visible, even tangible. looks like a postcard souvenir Rothenburg ob der Tanber. 25 the kermesse is pure 16th-centur Oktoberiest. Even the prise scene dissolves to disclose a cho of angels. The singing is fine, althous.

not everyone was in the best 'voice on Priday. Outstanding wi Stuart Burrows in the title rol offering as tastefully sung Faust as I have ever heard. If cluding a superbly prepared all focused head-voice high C i "Salut Demeure," another con rageous defiance of contemporar Kiri Te Kanawa, as Margueriti

was also courageous, giving us physical and vocal characteriza tion rather than a virtueso im tetion of Melba or Eames. The was an admirable accomplish ment as was the darkly, reso nantly intoned and vividly car catured Mephistopheles of th American, Norman Treigle, in Covent Garden debut. A linger ing bronchitis forced Thomas Al len to omit Vaientine's air, bu all else was in swashbuckling order. The performance would have profited from more incisiv direction than it had in John Matheson's conducting.

FINANCIAL AND ADMINISTRATION

Paris

Due to a promotion a vacancy occurs in the French Branch of a European company. The branch's turnover has reached F.Fr. 60 million since its inception five years ago. There are ambitious plans to extend production facilities and to make acquisitions and the past must be filled by an individual who can rise to even greater responsibility.

Initially, however, he will be responsible for profit planning, investment appraisal and cash management. He will maintain control systems and legal records, handle legal matters with head office and local advisers and supervise invoicing and general administrative services.

He will be a member of the Management Committee.

Fluent English and French are essential. Candidates should have had at least 10 years progressive experience in well run companies with international interests. This experience must have embraced administrative legal and financial problems.

Salary will be not less than F.Fr. 100,000 and a car will be provided. Training in Head Office will be given.

For further information in complete confidence, RING: Paris 776.43.14, Extension 2214. OR WRITE Box D 4,712, 1.H.T., 73 Rue Lebeau, 1000 Brussels, Belgium,

U.S. Families Face Big Debt Bill

families have shown recently a tendency to resist purchases of his licket items and to reduce their debts, many of them still have a heavy burden of fills as the economy drifts

Most financial analysis still maintain that there is no great danger in the hig hills owed by households, but all analysis are watching closely the statistics on loan delinquencies.

Fear does exist among some bankers, for example, about the ability of the most overturdened families to pay their creditors, especially as the jobless figures rise and overtime is eliminated.

In the fiscal year that ended last June 30. there were 168,787 personal bankruptcy cases. Indications are that in the present fiscal year the rate is higher, probably near 1967's record

A check of court records in various large cities around the country, by Business Week magazine, showed more cases filed in the first months of this calendar year than in all

Morgan Guaranty Trust Co. notes in the current issue of its "Survey" that the amount of consumer debt, including mortgage loans, increased by 42 per cent between the end of 1970 and the middle of 1974.

While that figure seems large in itself, the significance is pointed up by the fact that aftertax personal income in the same period rose by only 37 per cent. Morgan commented: "A bigger share than in the past of people's in-

NEW YORK, Nov. 25. (AF).-While U.S. comes is already committed just to make payments on past purchases."

Much of the American public, it appears, not only attempted to raise their style of living in spite of inflation but, when frustrated in doing so, took out loans to pay the bills. Now, when repayment ability is weak, these bills are com-

Morgan observes that delinquency rates for both installment loans and mortgage loans have risen over the past year. In mid-1974 about 2.63 per cent of installment loans—the kind that are repaid in weekly or monthly installments—were listed as delinquent, or 30 or more days behind in payments. That rate compares with 2 per cent a year earlier and is the

highest since 1950. The delinquency rate among mortgage loans at midyear was 4 per cent, up from 3.8 per cent a year earlier and from a rate of 3 per cent in the mid-1960s. Foreclosures, according to Morgan, are running around 136,000 a year. In all, American households now owe \$577.3 that, American households how owe \$57/3 billion, or had owed that much at midyear. This compares with only \$23.4 billion in 1945 and \$406.1 billion as recently as 1970. While many families seem to feel that government spending is rising at too swift a pace, Morgan points out that although consumer credit since 1970 has risen at more than 40 per cent, government spending has risen at less than 28 per

The rise in debt formation now seems to be slowing for both business and individuals, but with combined inflation-recession eroding the ability to repay, delinquency ratios are now being watched as closely as the jobless rate.

In UN Study of World Trade Situation

Threat of Economic Isolationism Reported

By Shirley Christian

UNITED NATIONS, N.Y., Nov. 25 (AP).—Expanding trade appears to have helped, unwittingly, to create the world's present conomic woes and may in turn fall victim to them. A United Nations survey of cur-

rent economic developments suggests that an era of economic isolationism could be approaching as countries try to defend themselves against inflation and the price uncertainty of oil, food and other commodities.

That would shut off the unprecedented expansion in trade that has occurred in the past three years. The world would find itself going against the exchange of food, oil, raw materials, indus-trial equipment and manufactured

goods.
The survey, prepared by the UN department of economic and social affairs at the request of the problems from 1971, the year Western countries began a series of currency realignments, including two devaluations of the dollar. These had the desired effect of increasing world trade, partic-ularly for the United States, which wanted to make up its balance-of-payments deficit.

Exports Stimulus

During 1972 and 1973, the export market became the single most important stimulus to production in a majority of industrialized countries, among them West Germany Britain, France and the United States, Price controls in the United States also made it more attractive to sell goods abroad than at home.

Trade among all nations reached an estimated \$570 billion in 1973, up 37 per cent from 1972, or a record 25 per cent even if measured in pre-devaluation dollars. Just about everybody was trading with everybody else.
This in turn increased demand.

for ores and other raw materials used by industry. However, suppliers were unable to increase production quickly enough to meet the short-run demand, and so, the survey notes, "markets re-mained generally unsatisfied, and prices rose rapidly."

By the end of 1973, the survey finds, lumber prices were averaging 50 per cent above 1972, pulp prices were 60 per cent higher; the increase in metal prices rang-

into this rapidly expanding market.

ed from 14 per cent for aluminum to a doubling for copper and a brebling for sinc. For the major nonferrous metals

as a group, the price index at the end of 1973 was about 70 per cent higher than a year earlier. The New York price for natural rubber was three times what it had averaged two years earlier. Onto this scene came the

doubling and re-doubling of oil prices.

That will give members of the

Organization of Petroleum Exporting Countries at least \$60 billion in extra cash this year. Most of it would otherwise have remained in the control of Europe and the United States.

What the survey terms a "general deceleration" of economies is taking place as nations struggle to pay this bill. The slowdown reaches into domestic economies in the form of lavoils and prod people losing their jobs begin to put the blame on imports, then governments could react

At the same time, the enlarg-

ed output of raw materials stimulated by last year's high prices will be coming on the market. However, industries unsure of continued foreign markets may be hesitant to

Copper already is becoming available in larger amounts, but demand is sagging because of such things as auto production cutbacks. So prices have fallen to less than half what they were in April. However, an organization formed by four major copper-experting countries— Chile, Peru, Zaire and Zambia has decided to cut production by 10 per cent to try to boost prices.

The survey says the situation it describes—steep oil bills, eco-nomic deceleration and an oversupply of raw materials severely test the philosophy of open-door economics.

les will be thoughts about the ideas of interdependence and global solidarity that have underpinned most trade and aid policies since

Lockheed Sets New Accord With Textron

Write-Off Provision Is the Biggest Ever

By Richard Witkin NEW YORK, Nov. 25 (NYT!— The biggest obstacles in the plan for financially overhauling the troubled Lockheed Aircraft Corp. with a massive infusion of funds from Textron Inc. were removed Friday.

The two companies announced that they had agreed to an in-crease in Lockheed write-of s to a staggering \$800 million, and to elimination of a firm condition that Lockheed sell 45 more of its L-1011 jumbo-jet airliners.

The projected Lockheed writeoffs would be the largest ever recorded in a single transaction.

The announcement of major revisions to the proposed deal, initially put together last June, drew predictions from all sides that the bold program to rescue Lockheed from its dangerous predicament could go into effect early next year. It still needs final approval of the Securities and Exchange Commission and satisfaction of a few lesser con-

Plans are to submit the scheme to the SEC in about a week hopes of final ratification at a stockholders' meeting in February.

The revisions were agreed to unanimously by the directors of both Lockheed and Textron, a conglomerate that makes a wide range of products from helicopters to zippers. Textron's board agreed even

though two investment banking firms retained to assess the deal. Merrill Lynch, Pierce, Fenner & Smith Inc., and Goldman, Sachs & Co., had declined to make a

They said that "the ultimate values of the investment are not sufficiently determinable at present to permit them to make a definitive recommendation" to Textron.

The announcement added that. once the deal was consummated, it "should assure the continued vitality of Lockheed." From the start, it has been emphasized that the plan would not be a merger but rather a financial restructuring that would leave the two huge corporations with their

lion in the aerospace enterprise and end up owning 46.8 per cent of the Lockheed common shares ontstanding when the deal was

Sales of Goods in U.S. Running Behind Stocks

NEW YORK, Nov. 25 (UPI).—A new U.S. government report today showed sales running far behind accumulation of inventories-a signal that even more workers will be laid off in the next few weeks.

A Commerce Department survey indicated that although fourth-quarter sales would tiee I per cent, inventories would outstrip sales and unsold products would continue to pile up in

If the inventory and sales predictions for the fourth quarter are on target, the monthly manufacturers stock-sales ratio would be 1.77 on Dec. 31, 1974, compared to 1.65 on Sept. 30. This means that manufacturers would hold an average \$1.77 in inventory for every \$1 of sales.

Huge stockpiles of inventory is a major factor leading businesses to lay off thousands of workers to slow or stop production until sales can catch up. Companies with a vast accumulation of unsold products, especially in the auto, appliance and electronics industries, have idled hundreds of thousands of workers in pre-Christmas layoffs, and more production cutbacks are expected.

Machine Tool Orders in U.S. Decline 33 Per Cent in Year

NEW YORK, Nov. 25 (AP-DJ). -U,S, machine tool orders in October fell 11 per cent from September and 33 per cent from a year earlier, continuing a gradual decline that began in the 1974 second quarter.

chases of these important madustries.

October orders totaled \$171,7 million, down from \$193.7 million in September and \$255.5 million in October, 1973, according to the National Machine Tool Builders' Association. Machine-tool orders reached a high of \$321.1 million in March, when the auto industry was rushing to buy equipment to expand small-car production ca-

To put the October order figures in perspective, average monthly orders in the 1973 fourth quarter were \$234,2 million. That month-ly average rose to \$250,7 million the 1974 first quarter and to \$272.9 million in the second quar-ter, before sliding to \$201.3 mil-lion a menth in the third period.

The order drop from a year ago is sharper than the statistics indicate because most producers have raised prices at least once

days before.

The drop in net new orders reflects more caution in placing orders and a sharp rise in order cancellations, industry sources say. While industry executives are cautious about taking results for one month as a major indicator. the October figures apparently confirm a trend toward lower purchines by metal-working in-

The order picture is not uni-

chines used by the auto industry have seen a sharp order dropoff, while some builders of generalpurpose machines say their de-mand remains healthy, Most have experienced some slowdown in recent months, though

Order cancellations in October rose to \$38 million, 72 per cent higher than the \$32,1-million monthly average of the first nine months of 1974, and nearly triple the \$13.4-million average for all of 1973. The auto industry has been leading in cancellations. machine-tool builders say.

NYSE Firms Suffer Losses

NEW YORK, Nov. 25 (AP-DJ).

-Member organizations of the New York Stock Exchange had an aggregate pre-tax loss of \$34.1 million in the third quarter and a deficit of \$91.8 million for the first nine months, according to preliminary results disclosed by the exchange,

In the comparable 1973 periods, the member firms reported third-quarter pre-tax profit of \$19.9 million and a nine-month deficit of \$161.1 million The exchange said financial

statements filed with it during the 1974 third quarter showed. totaling \$51 million while about 255 firms had losses of \$85.1 mil-

Backe in Black

NEW YORK, Nov. 25 (AP-DJ). —After two consecutive red-ink quarters Bache & Co. moved back into the black in its first quarter, ended Oct. 31, although the profit fell 40 per cent from a vear earlier.

The large securities firm said fiscal first-quarter net was \$403,-000, or 6 cents a share, down from \$668,000, or 9 cents a share, a vear earlier.

The firm posted losses totaling \$2.4 million in fiscal 1974's second half ended July 31 That period included some of the most grueling months of the securities industry's recent financial squeeze. Bache wound up fiscal 1974 with earnings of \$257,000.

Early Rally Fails, Stocks Drop in N.Y.

Worries About Slump Top Coal-Strike Hopes

NEW YORK, Nov. 25 (IHT).-Prices closed lower on the New York Stock Exchange today with effects of the U.S. recession over-coming some early hope for an early end to the coal strike. The Dow Jones industrial average fell 3.36 points to 611.94. It

was off 8.06 points at 3 o'clock. Declines by the close had a lead of about 795 to 560 over gains, which led strongly in early trading. Volume totaled 11.3 mil-

lion shares compared with 13.02 million Friday.

Analysts attributed early light baying to news that the coal miners' union had won some modifications in their earlier tentative contract agreement

Brokers said the changes brought an end to the coal strike in sight. However, brokers added, Wall Street continued to be worried about the recession as layoffs spread in the auto industry.

Stocks of the leading car manufacturers closed narrowly J. C. Penney, which reported lower earnings for the September quarter last week, lost 3/4 to

37 1/2 Penney and Sears, Roebuck also were the subject of a report in which analysts predicted lower earnings for the year at both

Bausch & Lomb lost a point to 24 7/8. In a published report, investors were said to be concerned over the competition that B & L's soft contact lenses would encounter in the months

Low-priced Deseret Pharma ceutical dipped 1/2 to 6 1/8 after omitting the quarterly dividend. The American Stock Exchange index closed down 0.52 to 63.31. Most active was Marinduque Mining class B, which dropped 1/4 to 21/4 on volume of 31,100

In Chicago, soybean oil futures moved to limits higher on the Board of Trade, then closed with limit losses.

Soybean futures, up 15 cents a bushel early, closed with a 17cent loss, while soybean meal, up \$3 early, closed with a loss of \$4. Wheat futures maintained a small gain at the close.

U.S. Industry Is Left Holding Baby in Small-Car Boom

By Agis Salpukas

DETROIT, Nov. 25 (NYT) -A humper sticker appearing around the city says: "The world is mad." To many top auto executives here, it expresses their

To keep pace with the sudden huge demand for small cars spurred by the gasoline crisis, the industry revved up production lines to turn them out. Now the industry is watching consumers turn away from the small cars. While all auto sales are slumping severely—down 38 per cent in the early part of November-the sales of small cars, compacts particularly sub-compacts.

have fallen even more. On overtime during the height of the energy crisis, workers in plants that make small cars are now being laid off. The plants producing Cadillacs and Mark IVs are on overtime and the few plants that are at full production tend to be those producing regular-sized and intermediate

Auto industry executives are wondering what happened to all those people who were shaken by soline shortage. In January and February, they recall, buyers wanted Vegas and Pintos so hadly that they waited up to two

months for delivery. Now the

plants producing these cars have

been shut down for periods.

Two-Month Wait

Obvious Reason What is the explanation for the slump in the small-car market? One reason is obvious. The small-car segment of the market compacts, sub-compacts and small imports—has grown steadily over the years, going from 22 per cent of the market in 1966 to a high of 53 per cent last January. At the same time, the regular-

3000000000000000000

Plymouths and Fords, has gone from about 30 per cent to the present 16 per cent.

The number of workers in plants turning out small cars has gone up accordingly. Therefore a severe slump in small car sales is now having a much larger effect on the industry as a whole. Also, the small-car plants were put at full production and over-

Car Sales Drop By 35% in U.S. In Latest Period

DETROIT, Nov. 25 (AP) .- The today that U.S. auto sales in mid-November dropped 34.7 per cent compared with the same period a year ago.
Sales during the Nov. 11-20
period crawled in at 190,033.

compared with 258,818 in the same 1973 period, when deliveries already had begun to slow in the face of the energy crisis. The percentage decline is based on the daily selling rate. There was one less selling day in mid-November 1978.

Chrysler, with sales off 41.7 per cent, posted the sharpest 347 per cent.

drop. General Motors was off 343 per cent, Ford 313 per cent and American Motors was down The daily selling rate of 21,121 car was the poorest mid-November

performance by the faltering

industry in 14 years, excluding 1970, when GM was crippled by

a lengthy national strike.

turn now, therefore, has had a more sudden, severe effect.

Why did people then not snap up the smaller cars? From a high of 53.8-per-cent share of the market, the small-car segment in October alumped to 46.3, with some sub-compacts going from a high of 12.6 per cent to 7.2 per

Price Increases

One major reason is price. When the auto makers put in their price increases last year and at the beginning of the 1975 model year, the increases averaged from 15 to 25 per cent on the smaller cars while the bigger cars went up by about 10 to 15 per

The automakers also loaded up the small cars with options such as special trim packages, power seats and windows. They felt that people wanted small cars but with the comfort and luxury of big cars. The aim of the industry was to

increase the profit margin of the small cars and attempt to keep the same rate of return, even though the market was shifting But many customers have other ideas. Dealers report that when customers looked at prices of the

smaller cars this fall, some went out to the used car lot and bought full-size cars for the same or lower prices. So the automakers, who had an oversupply of big cars during the energy crisis, now have an

The automakers have given no

indication that they are willing

oversupply of small cars.

GOLD COIN INVESTMENT

A very fine collection of English gold coins ranging from George III to Elizabeth II can be purchased at its market value of \$150,000 in sterling or another currency. The collection has been put together by one of the world's

leading coin experts and contains over 290 different gold coins, many of them very rare: all are guaranteed for authenticity by a leading European bank. The collection is deposited with a continental bank and

IF YOU DON'T DANCE THEY BEAT YOU By Jose Quintero. Little, Brown. 296 pp. \$7.95.

Reviewed by Christopher Lehmann-Haupt

YOU have to wonder about Jose Quintero. Not that it isn't charming the way his autobiography has him floating into his role as one of American's leading play directors, as if the theater were a buttercup he found in a meadow one sunny day. And not that the anecdotes he tells about his early career aren't often amusing: how he stood before his fellow-founders of the Circle in the Square Theater and fervently announced in his insecure English that "We will have to sink or drown," or how Tennessee Williams came to

see their revival of "Summer and Smoke" and applauded by pound-

ing his silver-handled cane on

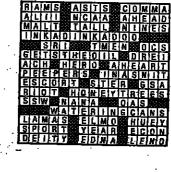

what he assumed to be the Circle's

floor but was actually Quintero's No, it isn't exactly that one's puzzlement over Quintero ever leads to impatience with his "If You Don't Dance They Beat You." It's disarming the way he intuits and accepts the odd people he encountered early in his career: Emily, the actress he met as an undergraduate at Los Angeles City College, who insisted he take theater courses, and later summoned him to Woodstock, N.Y., to become the business manager of a summer stock company without any businessor Geraldine Page, the lonely seamstress he persuaded to make one last try at becoming an actress in the revival of Williams's "Summer and Smoke."

It's almost magical to watch him developing as a director—to see him casting his productions without asking the actors to read for their parts, to learn how he choreographed the stage move-ment without ever blocking out the play's action in advance, to behold him sprung fullblown as our theater's most accomplished director without ever having undergone formal training.
"When you direct, you're after that shy, inner thing hidden in the woods of your being." he writes after describing the sequence in which the blind girl is coaxed from the forest in the movie based on Gide's "Symphonic Pastorale." "But it is not technique that I was ever searching for, but rather the treasure the blind heart." (And we believe him.)

Still, you have to wonder about Quintero. His development as a director can't have been quite as uncomplicated as he makes it all sound. His childhood in Panama must have been more than the grim fairy tale he tells of the underschieving son. There must have been something more to attract him to the theater than his failure as a premedical student and the advice of a young woman named Emily.

Solution to Previous Puzzle

There must have been a force be hind his development — 30m psychic complexity that lit flame behind the black eyes the hypnotized the other founders of the Circle into following him o his impossible quest. It can have been only his naive fait and idealism—the way he make it sound. So you wonder abou Quintero.

Then gradually you get a filumination of sorts. To bem with, the further he gets awa from himself and into the illi sions he is trying to b ing alir on stage, the more serious an complex the one of his writing becomes. And then, in an extr ordinary chapter on his direction of Eugene O'Neill's "Long Day Journey Into Night," in which he compresses into a sing imaginary rehearsal session to full history of his coaxing fort of the play's inner life, he near reveals himself. For the way ! directed "Journey" was by lite ally identifying his own exp rience with that of the haunte Tyrone family (He actually coversed with Fredric March Florence Eldridge, Jason Robard and Bradford Dillman as if h himself were a character in th So the message that emerges is that Quintero de no find his own reality until h discovered O'Nelli's; he did no begin to exist until he brought O'Neill back to life.

It is a powerful tour de force this long day's journey int Quintero's own night (and inc dentally, it yields a touching per trait of the widow Carlotta Mon terey O'Neili, who grew fore enough of Quintero to award him the prize of directing "Journey and who eventually when six had lost her mind, began to con fuse him with her dead husband. But it still leaves certain ques tions unanswered. What does Quintero mean when he write about the "shock" of Geraldin Page's sudden success: happened to me, too, and couldn't, I really couldn't hand-it." Why exactly does he assethat the climax of direction "Journey" came too early in his career? To what is he referring when he keeps alluding to the "hatred" that his fellow-Circlefounder Ted Man, would some day feel toward him?

And what does the title, "If You Don't Dance They Beat You. refer to—besides the little girl be met in Mexico City after his theater had folder who would only crayon frames around the paper he encouraged her to draw on and would never "take on of the center" and who had got beaten by her mother because she refused to dance for Quintero? What dance did Quintero himself choose not to per-form, and who beat him for his refusal? Or is he signaling that his book is only a frame and that its refusal to take possession of the center is intentional? And if so, why?

It's a diverting book-full of charm and rich anecdotes and vivid portraits of people who mattered in the postwar Amer-ican theater. But there's some thing missing at the center. It leaves you wondering about José Quintero.

–By Alan Truscott

One no trump would not be everybody's choice with South's hand, but it had much to recommend it. The five-card suit and two tens made the har equivalent to 16 points. South foresaw a rebid problem if he opened one neart and received a one-spade

response.
On the diagramed deal, North took an optimistic view of his hand and drove to game. His two-heart bid was a transfer, showing at least five spades, and he followed with a bid of three no-trump, which South converted to the spade game. If North had contented himself with two notrump on the second round, as most players would, the partner-ship would have made a part-

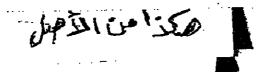

South's prospects would have been excellent if West had held the spade queen, but he knew that card must be on his right when a trump was led. The normal finesse was useless, so he put up the king in dummy. There was a faint chance of col-lecting a singleton queen from East, and this play kept some significant information from

East shifted to the diamond seven, and South's king was taken by the ace. Now East had to make a crucial play. Thanks to the play at trick one, he had no way to know that his partner had a second trump trick-something he would have known if South had played low from dummy at trick one and the queen had won.

A shift to the club king would have established a fourth trick for the defense. The club shift was likely, in West's view, to give South his contract, so West continued passively with a trump. When East took the spade queen he shifted to a club, but it was too late. South took the ace drew the missing trump, and ran his hearts, discarding all the club losers from dummy and making 10 taicks

Against a defender of lesser caliber South would no doubt have failed in his contract. West would have led the club king originally or shifted to that car without realizing the danger c' such a play.

Soccer-Scandal Book a Best Seller

BUDAPEST, Nov. 25 (UPI) .--A banned book exposing bribery and corruption in Hungarian soccer is Hungary's most sought best seller.

Since it was confiscated at the request of the former Hungarian national team manager, Rudolf Hlovszky, its price has increased from 11 forints (44 cents) to as much as 500 forints (\$20) for a black market copy.

"Some people have gone as far 100 forints a day," the Hungarian Communist youth newspaper Magyar Iffusag said.

The 170-page book, entitled "Why Hungarian Soccer Is III," was written by Antal Vegh. It details Hungary's fall from among the top teams to 23rd place in European soccer.

Vegh, a talented but controversial writer, was attacked by the Communist Writers' Union 10 years ago. But none of his earlier works, covering a wide range of topics caused such a furor as his book on soccer. It was the first book to be confiscated since 1956.

Manipulated Matches

The book claims that corruption is widespread among Hungarian soccer players and team officials, who manipulate matches for personal gain.

"Under the leadership of Illovszky, Hungary dropped to 23rd place in European soccer. He was not a team manager, but a figure of state," Vegh wrote. He said that the status of

Hungarian soccer players was unclear and their incomes kept secret. Officially their earnings are very low, he wrote. But it was common knowledge that they received premiums from state enterprises, including free apart-

Stock-Car Title Goes to Allison In 500-Mile Race ONTARIO, Calif., Nov. 25 (AP).

-Bobby Allison cruised to his second grand national stock car triumph of the year yesterday, winning the Times 500-Mile title when a five-way battle for the lead dwindled to a rout in the last 10 miles.

Allison, whose Matador finished 40 seconds in front of David Pearson's Mercury, took the lead for the first time since the opening lap when the green flag signaled the end of the last of three caution periods in the race with 23 laps to go around the 25mile Ontario Motor Speedway.

Only 2 1/2 seconds separated the first five cars, however, until Pearson stopped for a new right rear tire. That left Allison and Gale Yarborough dueling for the lead with Richard Petty and A.J. Foyt close behind.

Foyt's Chevrolet scraped the wall on the third turn of the

Honved star Jozsef Bozsik, called Their real incomes, Vegh wrote, Vegh's charges "unjustified" and succeeded in having the book banned. He also filed a libel suit against Vegh, but Hungarian soccer officials convinced him to

be able to achieve anything."

Top 2 College Teams: Oklahoma and Alabama tional champion last season -NEW YORK, Nov. 25 (NYT) .-

The race for the top spot in college football has simmered down to Oklahoma and Alabama the only remaining major unbeaten and untied teams in the

The number of teams with unsullied records was sliced in half when Michigan bowed to Ohio State, 12-10, and Yale dropped a 21-16 heartbreaker to Harvard, leaving the two old rivals to share Ivy League honors.

Southern California nailed down the host spot in the Rose Bowl, capturing its third con-secutive Pacific-8 title with a 34rout of the University of California, Los Angeles. The Trojans will play Ohio State, which was picked by the Big 10 for a third consecutive time.

In The Game at Cambridge, Mass., Yale saw its bid for an unbeaten season and outright Ivy League title thwarted with 16 seconds left. Milt Holt, quarterback, faked a pass and swept a yard around left end for a touchdown that gave Harvard the victory and a share of the championship. Holt wound up with 212 yards passing for the day.

Defeated Nehraska Oklahoma, which is ranked No. 1 in the Associated Press poll, but not judged by United Press International because the Sooners are on probation, came from behind and defeated Nebraska, 28-14. Oklahoma will play Okla-homa State next Saturday. Alabama, second in the AP and No. 1 in the UPI polls, did not play on Saturday. The Crimson Tide has one regular-season game left with Auburn on Friday at Birmingham. Alabama's biggest coming assignment, though, is against Notre Dame in the Orange Bowl New Year's night, After Saturday's results, Ara Parseghian, the coach of Notre

Monday's Game

Thomas Given Redskins-Eagles Game Ball brought him back after a squab-ble with an assistant coach Football League. Football League.

But yesterday. Thomas started when he was presented with the

Thomas did a lot of smiling

P UP-Atlanta's Daye Hampton appears to be trying

catch a pass instead of his own fumble in 49ers game.

yesterday. And talking. With the same apparent ease with which he occasionally glided through the Philadelphia Eagles, Thomas handled the horde of reporters who gathered around his cubicle in the Redskins dressing room after he and his mates thumped the Eagles, 26-7. Thomas was in complete control of the situation, loose and seemingly enjoying himself.
When he was through fielding questions, there were a lot of

puzzled looks, flushed faces and fidgeting among sportswriters. Did you ever get a game ball before?" he was asked. "I get one all the time." he replied. "You must not keep up with me."

"Why do you hate us?" another asked Thomas. "I don't hate you," Thomas said. "If I hated you, I'd tell you. You must hate yourself." Despite his playful mood, Thomas was all business on the field. He had done well in his first start to the third week of the season. But in his second

start, against the Eagles on Nov. 10, he played poorly. He had a net gain of zero yards in seven carries, and although Allen would not criticize Thomas publicly, he was dissatisfied with him. So much, in fact, that he replaced him with hurting Larry

Brown after one half. And for the first time since he acquired Thomas, Allen had doubts he would get back the

in place of the injured Brown. Thomas was not awesome. But he did show quickness hitting his holes and ended the day with a touchdown and 65 net yards on 20 carries: He lost a total of 15 yards on four of the rushing

"Duane really played well," said quarterback Billy Kilmer, who himself had an 18-of-24 passing day for 172 yards and a touch-

"I didn't do anything different. I just tried to execute better than I did last week," Kilmer added. Last week, of course, he piloted the 28-21 victory over Dallas. Allen was so pleased with

Thomas's performance that he

wasted no time in announcing that, "as of right now, I think we'll start Duane against Dallas. All Duane needs is a lot of playing time." "It'll be good to be back home in Dallas," Thomas said. Knowing that he will start is

great advantage to a player, Thomas said. "The motivation comes in that you can prepare yourself in advance when you know you will be starting. I can study the films and get more coordinated with the people I'm working with. We can talk about things more," he added. With Brown nursing his sore

knee last week, Thomas and

Moses Denson got most of the

and Kenneth Parkinson. It was tape day, and the prosecution was playing White House tapes for Everyone in the courtroom was provided with a set of earphones. and all we had to Buchwald do was sit back

and relax and listen to how

everyone was shafting each other. It's a pity that a'! Americans can't hear the Nixon tapes. No matter what you read in the transcripts, nothing compares to listening to the voices themselves as they discuss ways and means of shutting off Watergate at the

Having just seen "The Godfather" on television, I could not helr comparing the Don Corleone family with the Don Watergate family. The first thing that occurred to me was that Marion Brando as the Godfather spoke so much better English than Richard Nixon—and this despite the fact that Brando had cotton in his cheeks and was supposed to have been born in Sicily. Second, I couldn't help thinking that was so much more honor in the Don Corleone family than there was in the Don Watergate

The Don Corleones lived by a code of sorts. While they did not hesitate to take care of people

Top French Prizes Go To Three Novelists

PARIS, Nov. 25 (Reuters) .--The Prix Femina, one of France's most coveted literary prizes, was awarded today to René-Victor Pilhes. 40. for "L'Imprécateur" (The Curser).

Another top literary award, the Prix Médicis, went to Italian teacher Dominique Fernandez for "Poporino ou les Mystères de Naples" (Poporino or the Mysteries of Naples).

The Prix Medicis foreign award

protected each other. When you listen to the tapes, you have to conclude that in the Don Wateragain—Bob Haldeman, John gate family it was every man for himself. Although the Nixon licutenants' primary concern was supposed to be to protect their "Godfather," the tapes show their primary interest was to save

So what you hear through your earphones is the making of a conspiracy not only against the government but against each other. Haldeman and Ehrlichman are out to get John Mitchell. Nixon is out to get Colson. Colson is out to get John Dean and Haldeman is out to get Ehrlichman, If nothing else, the Watergate people have given "obstruc-tion of justice" a bad name.

The clearest tapes are the telephone conversations between Nixon and his aides. The thing that struck me the most about these is that, when Nixon was speaking on the phone, he always breathed heavily as if he was making an obscene call-which it now turns out he was.

Another observation you can make from the tapes is that nobody ever let the President of the United States say anything. Every time he started to talk he was interrupted by one of his aides. All they permitted him to do was occasionally repeat some-thing that they had just told him. Marlon Brando would have never stood for this.

I don't want to carry this comparison between the Don Corleone and Don Watergate families too far. For one thing, the Don Corleones were so much smarter than the Don Watergates, You can't conceive of Marlon Brando's people setting up a tape system in his house. And you know even if they did, the Godfather of the film would have thrown out the machines after the Feds were on to him.

But we can't cry over Scotch tape. The tapes are there for the jury and a few privileged members of the press to hear. They make great listening, and my only regret is that so far the American public can't tune in on them. If they could, I assure you they would have a higher rating than "The Godfather." Hollywood writers just can't duplicate the olicity of the Watergate gang. they tried, nobody would be-

WAVERLEY ROOT

Ferdinand Lop: France's Humorless Zany

PARIS (IRT).—The last time I saw him was in July. I was sitting on the terrace of the Deux Magots, contemplating the perfect proportions of the church of St.-Germain-des-Pres, on one of the few warm, sunny days of that ill-fated month, and I cringed when I saw him working his way along the outer line of tables. I was in no mood to be interrupted in the enjoyment of the company of a beautiful blonde 48 years younger than I; I could imagine the other occupants of the terrace asking themselves, "How does an old geezer like that get away with it?" Nothing compelled me to admit that she was my stepdaughter-in-law.

"Don't let that man catch your eye," I said to Catherine, "or we'll never get rid of him." "Who is he?" she asked. "Ferdinand Lop," I told her, but she was too young to know who Ferdinand Lop

He pushed his way through the tables to us anyway, though we were in the back row, and held out one of his self-published brochures of his poems and political views. Idiotically, I tried to discourage him by pretending that I didn't speak French, but Lop was never a man to be easily discouraged. "I am Ferdinand Lop." he said with finality. Everybody knows Ferdinand Lop, or should, his tone of voice indicated, and when I remained stupid he pointed to the signature of his booklet. "Ferdinand Lop, Ferdinand Lop, Ferdinand Lop," he repeated. The performance became uncomfortably long and I wondered if he would not make me feel sillier than I did already by suddenly recognizing me. After all, I had talked to him several times over the past 40 years (though I had grown a beard since our last meeting). But there was no danger. Ferdinand Lop never recognized anybody; it was for them to recognize him, the political genius who had drawn up the (never published) "Plan to Save France."

By the time he gave me up as hopelessly ignorant, I was thoroughly ashamed of myself. I should have been more tolerant with an old man (he was 82, I think) who, after having breathed the heady, if imaginary, fumes of greatness, was now reduced to peddling his pitiful pamphlets at sidewalk cafés. I felt a little petter when I saw him hail a taxi and drive away. I hadn't thought his means ran to taxis. It occurred to me then that he was not trying to sell his booklets because he needed the money. He was still trying to save France.

Era of Nonsense

When Ferdinand Lop died in October, it was evident from the scanty and erroneous obituaries published in the French press that it was possible to be older than my stepdaughter and still too young to know about Ferdinand Lop. Their writers were clearly unacquainted with the Third Republic's Era of Wonderful Nonsense, in whose political division Lop had been a great comic figure, though he himself did not know it. Some of them confused him with another political comedian of the period, who was being funny on purpose, which Lop could not be, for he had no sense of humor. He was the only person who took Ferdinand Lop with deadly seriousness, and he would not have been amused at the obtuaries which attributed to him the zany political program which his humorous contemporary

I have forgotten the latter's name, but I remember some of the planks in his platform when he ran for municipal councillor: dredging the Seine to permit ocean liners to dock at Paris, abolishing poverty after 10 p.m. and reducing the gestation period of elephants. Encouraged by the fact that he actually received a few votes in the first-round election, he displayed a new set of posters offering to withdraw from the runoff in favor of any candidate who won an athletic meet which he proposed to stage on the Boulevard St. Michel, whose events included a rowboat race down its gutters and a running jump. A few days later a third poster informed the public that no one had shown up for the contest and he would therefore not withdraw. He came within a few votes of being elected.

Ferdinand Lop's name does not appear in the "Dictionnaire de la Politique Française," a work which, like Lop, is devoid of humor. This seems cavalier treatment for a man whose political career was marked by receiving votes for President of the Republic (two, in 1939) and for a seat in the French Academy (one, in 1956).

OFFICE SERVICES

YOUR OFFICE

in PARIS

Lop ran for everything. To become a formal candidate for most offices it was only necessary to post a small bond which was forfeited if the candidate failed to poll a minimum percentage of the votes. Lop always lost his bond, but this was an unimportant detail, since it was not he who had put it up; the money came from the students of the St.Germain-des-Prés and Latin Quarters, who chipped in to pay it on the theory that the show was worth the cost.

Own Posters

Payment of the bond entitled Lop to have electoral posters printed at government expense, but he would have none of that. The officially printed posters were dull and all alike, and it is probable that he did not trust the government to transmit his burning ideas unaltered to an avid public. He confected his own posters, lovingly inscribed in half a dozen colors, in a flamboyant calligraphy which utilized lettering of many sizes and shapes to emphasize his points. It was early in my career as an habitue of the Cafe de Flore that I first encountered the phenomenon of Lop. A tall thin man in a rusty black suit, white shirt and black string ite, and a flat

stiff black felt hat like those worn by Seville equestrians, he burst through the door, propelled himself as though on roller skates to a stance in the middle of the room, and without prelude launched himself into a tirade on the malfeasance of the government. Half the cheered him on the other half limited itself to illconcealed hilarity. The flood of words was turned off as abruptly as it had been turned on, Lop swept us with a look of satisfied triumph a preacher conscious that he had saved souls, and darted out the door again on the way to evangelize the Deux Magots.

I saw him almost daily after that as I sat on the terrace of the

Flore, which I generally found myself sharing with a quartet of diligent beer drinkers who seemed to be permanent fixtures, probably put out in the morning and taken in again at night by the waiters, along with the chairs and tables. Their ringleader was a grand-nephew of Victor Hugo, whose only business in life, as far as I could discern, was to try to look as much like his illustrious ancestor as possible. Lop habitually passed on the opposite side of the Boulevard St.-Germain; as he reached the latitude of the Brasserie Lipp, the four would rise from their chairs, raise their arms in a vaguely Fascist salute, and bawl, "Vive Lop! Vive Lop! Vive Lop!" Lop's face muscles would tighten as he fought to restrain a smile of satisfaction unworthy of a statesman. Finding the perfect tone, he would acknowledge the salute with a stiff, dignified inclination of the head.

During election campaigns Lop hired halls, small and inexpensive es, for political meetings. Once more it was the students who paid, ostensibly those who had organized themselves into a "party" called Lopistes, but it might be suspected that some of it came from the opposition anti-Lopistes, whose motives may not have been purely

political. Both factions turned up at Lop's meetings. He began to speak, the Lopistes began to cheer, the anti-Lopistes began to jeer, and a battle royal broke out in the hall. Somehow it always managed to work its way up onto the speaker's platform and raged around Lop, who was buffeted between the two armies until the students judged the fun had lasted long enough and marched, shouting, away, leaving Lop, battered and beaming, to pick himself up and limp home. On one occasion a parade of Lopistes carried him on their shoulders the length of Boulevard St.-Michel. shouting "Vive Lop!" and deposited him on the highest level of the fountain at its foot; firemen had to be called to get him down. Lop reveled in the fury of his political meetings, clear proof that he was touching the Republic to the quick. It never occurred to him that none of the partisans in their epic battles was old enough to vote.

Whenever there was a political crisis—which was often under

the Third Republic-Lop repaired to the courtyard of the Elysée Palace, hoping that the president of the Republic might show himself sufficiently enlightened to summon Perdinand Lop to form a government.

Once, during the more active part of his career, Lop gave instructions for his funeral. "I don't want to be buried in the Pantheon," he said, "but in Notre-Dame. It's more noble." He was buried in a small village cemetery in Normandy. Only five persons were present, all employees of the undertaker.

PEOPLE:

Taft, Okla., Picks A U.S. Television Sta U.S. TV star Redd Foxx ("San-

ford and Son") has turned over \$10,000 to the town of Taft, Okia_ to build a swimming pool. Forx was in Tait, a predominantly black community, Sunday, to turn over the money so the children "won't have to go 10 or 12 miles to go swimming this sum-mer. Why did he pick Taft? "Taft selected me," he said. Last summer the town named him chief of police. Now citizens are talking about asking the legislature to change the name of the town to Redd Foxxville. Unwed mothers will be banned from future Miss World contests. organizer Eric Morley has announced. Several Latin American contestants in the 1974 compettion angrily criticized the selection Friday night of Helen Morgan, 22, as Miss World because she has an 18-month-old son,

is no controversy (this year), Redd Foxx Morley said, "because Miss Morgan entered under the existing rules and won. I, for one, am not prepared to moralize about her. We shall continue to supnewly formed United N port her and get as much work as we can for her. Alicia Rivas, 19, representing Venezuela in the ters in Tokyo. contest, said that Miss Morgan should not have been allowed to compete. "In my country," she

Miss World should be.". A Paris court has given a man and his wife a suspended sentence (four months) and fined them 4,500 francs for taking part in a live sex show. Bene Gaucher, 37, and his wife Micheline, 48, did not deny the charges levied against them—the court said that their act was "deliberately devoid of any artistic alibi"

said, "a girl who has a baby with-

out being married is regarded as a bad girl, not pure and un-

defiled as we are led to believe

Betty Ford, recalling that she once underwent psychiatric treatment, has agreed to be honorary chairman of the 1975 National Association for Mental Health drive. "This is a red-letter day for me," she said. "As you know I had psychiatric care and. I'm happy to say, it did me a great deal of good."

On the subject of schools: James Hester will step down from his post as president of New York University next summer to become the first head of the

Richard, born out of wedlock. "As far as we're concerned there
